TAMPA, FL, UNITED STATES, July 25, 2025 /EINPresswire.com/ -- PuzzleHR, a leading provider of Human Resources as a service, successfully achieved Service Organization Control 2 (SOC-2) compliance. This milestone underscores PuzzleHR's dedication to maintaining the highest standards of data security and operational excellence. SOC-2 certification indicates that PuzzleHR implements comprehensive security measures and processes meeting or exceeding industry standards for protecting sensitive customer information. This certification covers the security, availability, and confidentiality of the customer data processed through PuzzleHR's systems.

"Achieving SOC-2 Type 1 compliance affirms our commitment to data security and operational integrity," said Chris Timol, President of PuzzleHR. "This independent assessment validates that our security controls are thoughtfully designed and aligned with industry standards, reinforcing our promise to protect the sensitive information our clients entrust to us."

Data security concerns are paramount for organizations selecting HR solutions. With PuzzleHR processing sensitive employee data, including personal details, compensation data, and performance records, the certification provides clients with independent verification of PuzzleHR's security measures. PuzzleHR intends to maintain SOC-2 compliance through regular assessments, continuous improvement of security protocols, ongoing monitoring, and annual SOC-2 audits.
