

BPX Strengthens SAP Signavio Practice to Deliver Next-Gen Process Intelligence

A world leader in business process consultancy, Business Process Xperts (BPX), has announced a major build-up of its SAP Signavio practice.

PUNE, MAHARASHTRA, INDIA, July 27, 2025 /EINPresswire.com/ -- The intention behind this growth is to deliver next-gen process intelligence to enterprises which are seeking to drive smooth digital transformation. With the use of SAP Signavio features, the enhanced BPX [Business Process Xperts](#) [SAP Signavio Practice](#) aims to offer chief information officers and process owners greater visibility and insights that can be implemented, thus helping them enhance the realization of value in mission-critical processes.

The features offered by SAP Signavio offer rich modeling, mining, and management capabilities that, in turn, facilitate process transparency and optimization. BPX's larger SAP Signavio practice will help customers understand and utilize the process intelligence available in Signavio to improve processes, save costs, and elevate customer experiences across many industries. With the consulting know-how of BPX Signavio and the next-gen SAP solutions, companies can embark on process transformation journeys with concrete measures and confirmed results.

“

Elevating Business Processes As a SAP Signavio Certified Partner.”
Nikhil Agarwal

"It is our responsibility to help our customers gain the maximum benefit possible from the SAP Signavio solutions in order to realize their digital goals," says Nikhil Agarwal, co-founder of BPX. He further adds, "BPX [Business Process Xperts](#) [SAP Signavio Practice](#) helps organisations progress from the process discovery phase to the value delivery phase at a faster pace by using Signavio process intelligence to inform every decision."

"By enhancing our SAP Signavio practice, we help clients leverage next-gen SAP solutions and drive their transformation agenda faster," said Rupal Agarwal, co-founder of BPX.

BPX's strategy is based on the identification of inefficiencies using [Data Mining and Analytics](#), the building of automated workflows using the power of SAP Signavio tools, and the introduction of target interventions that align with company objectives. While companies are increasingly giving greater importance to next-generation SAP solutions to align with the constantly evolving expectations of their consumers and the challenges that face them in their operations, BPX Signavio consultancy provides a transformation roadmap that is structured and flexible, and one that is both time and cost-effective.

The enhancements developed in the SAP Signavio practice will lead to:

- > The discovery and mapping of processes by utilizing SAP Signavio tools
- > Signavio analytics-driven process intelligence for the objective of information mining and insights
- > For transformation programs, BPX Signavio consulting delivers strategy and execution roadmaps for transformation programs.
- > Integrating SAP next-generation solutions seamlessly in order to provide sustainable growth
- > The adoption of governance frameworks and ongoing monitoring for ensuring progress across all business functions

Businesses are offered actionable process data by BPX Signavio consultancy, which leverages the advanced features of SAP Signavio tools. This gives leaders the power to spot and eliminate bottlenecks, decrease cycle times, and enhance compliance. By offering clients the capability to connect their digital activities with specific key performance indicators, this next-generation process intelligence ensures that any process modification results in tangible business benefits.
