

# Built in Germany, Deployed Globally: Quarero Robotics Accelerates Production for Global Expansion

*Quarero launches full-scale production of its AI security robots in Germany, combining European precision with global deployment readiness.*

ZUG, SWITZERLAND, July 28, 2025

/EINPresswire.com/ -- As global demand for intelligent security solutions surges, [Quarero Robotics](#) has entered full-scale production of its advanced AI-powered surveillance robots, engineered in Switzerland and now manufactured in Germany to the highest industrial standards.

With security automation emerging as a critical solution to rising labor shortages and increasing urban risks, Quarero is addressing the need for scalable, autonomous surveillance through precision manufacturing and a robust deployment plan.

Quarero Robotics-The Perfect Combination of Swiss Precision and German Engineering: Revolutionizing Security with AI-Powered Robotics

"This is more than robotics, this is infrastructure for a smarter, safer world," said [Marcus Köhnlein](#), CEO of Quarero Robotics. "By aligning Swiss innovation with German reliability, we're delivering next-generation systems built for performance, resilience, and scale."

## Production Capacity and Global Rollout

- Full-scale production ramping up to meet international demand
- Initial deployment: 50 robots by end of 2025, scaling to 300 by 2027
- Built to serve airports, industrial zones, logistics hubs, campuses, and smart cities
- Engineered for seamless indoor and outdoor operation in complex environments

## European Engineering Meets Scalable Intelligence

Every unit undergoes rigorous testing and quality control to meet strict compliance, mobility, and

integration standards. Designed to operate autonomously 24/7, these systems feature modular components, real-time analytics, and predictive diagnostics, enabling continuous adaptation and operational uptime.

With a flexible Robot-as-a-Service (RaaS) model, Quarero offers clients a powerful surveillance solution with minimal

upfront investment and long-term scalability.

#### About Quarero Robotics

Founded in 2021, Quarero Robotics is a Swiss-German company developing autonomous AI-powered security systems. With a focus on scalable innovation, intelligent automation, and mission-critical performance, Quarero is helping organizations across the globe reimagine what security can be.
