

Lovell Government Services Partners with GyroGear to Bring Innovative Medical Device to Federal Healthcare

Lovell® and GyroGear Announce Strategic Partnership to Serve VHA, MHS, and IHS

PENSACOLA, FL, UNITED STATES, July 29, 2025 /EINPresswire.com/ -- Lovell® Government Services and GyroGear, the pioneering medical device company behind the GyroGlove®, are proud to announce their partnership to support federal healthcare systems including the Veterans Health

Administration (VHA), Military Health System (MHS), and Indian Health Service (IHS). Through this partnership, Lovell Government Services will serve as GyroGear's Service-Disabled Veteran-Owned Small Business (SDVOSB) vendor for federal procurement.

“

We are thrilled to partner with GyroGear to bring the award-winning GyroGlove to those who need it most—including the brave men and women who have served our country”

Chris Lovell, CEO of Lovell Government Services

The GyroGlove is a cutting-edge, non-invasive assistive device designed to stabilize hand tremors in individuals with conditions such as Parkinson’s disease and Essential Tremor. Using proprietary gyroscopic technology, the GyroGlove helps restore hand control and independence for individuals affected by debilitating tremors.

As GyroGear’s SDVOSB partner, Lovell is honored to introduce this innovative technology to federal healthcare providers. The GyroGlove is available on the GSA platform, with additional federal contracting vehicles coming soon. Listing with Lovell simplifies the procurement process and

helps federal agencies meet their SDVOSB contracting goals.

“We are thrilled to partner with GyroGear to bring the award-winning GyroGlove to those who need it most—including the brave men and women who have served our country,” said Chris

Lovell, Major, USMC (Ret.), CEO of Lovell Government Services. "This partnership is another step forward in our mission to deliver life-changing technologies to our veterans and active-duty service members."

Dr. Faii Ong, Founder and CEO of GyroGear, added, "We are proud to collaborate with Lovell to make the FDA-registered GyroGlove more accessible across the VA and other federal healthcare systems. Our goal has always been to restore dignity, function, and independence to those living with tremor, and with Lovell's support, we can now extend that mission to those who have sacrificed so much for their country."
