

Derksen Land Solutions Launches Concrete Crushing and Aggregate Services

Derksen now offers concrete pickup and crushing in Colorado Springs, producing certified Class 6 aggregate for road base, driveways, pads, and more.

COLORADO SPRINGS, CO, UNITED STATES, July 28, 2025

/EINPresswire.com/ -- Derksen Land Solutions is proud to announce the launch of its new [Concrete Crushing Services](#), providing contractors and developers with an affordable, sustainable solution for recycling concrete debris. All materials are processed at Derksen's facility in Colorado Springs, where they are crushed into certified [Class 6 aggregate](#) that meets CDOT standards for use in road base, driveways, pads, and backfill.

“

Adding concrete crushing to our service lineup is a game-changer for our clients. It helps them save on material, shortens project timelines, and supports sustainable construction practices.”

Daniel Derksen, Owner

“Adding concrete crushing to our service lineup is a game-changer for our clients,” said Daniel Derksen, founder of Derksen Land Solutions. “It helps them save on material, shortens project timelines, and supports sustainable construction practices.”

Derksen offers convenient pick-up services, to save contractors time and eliminate the hassle of arranging transport. While mobile crushing is available, the company emphasizes that transporting concrete to their facility is often more cost-effective. In addition to offering pick up services, they also accept concrete drop-offs.

Derksen Land Solutions concrete crushing equipment used to recycle concrete.

With this expansion, Derksen Land Solutions continues to lead the way in delivering comprehensive, turn-key land development services along the Front Range of Colorado.

Key advantages of Derksen's Concrete Crushing Services:

- Concrete pickup and recycling services throughout the region
- On-site mobile crushing available for large or remote projects
- Sustainable alternative to landfill disposal
- Helps support LEED goals and green construction initiatives
- Certified Class 6 aggregate available for purchase

This new service complements Derksen's full suite of land development solutions, including land clearing, grading, excavation, erosion control and [retaining wall construction](#). By adding concrete recycling to their lineup, Derksen is helping local builders and municipalities cut costs and reduce their environmental impact.

About Derksen Land Solutions

Based in Colorado Springs, Derksen Land Solutions is a trusted provider of site development and land improvement services. With a commitment to quality, efficiency, and environmental responsibility, Derksen supports residential, commercial, and municipal clients throughout the region.
