

MTC Visits 4 Major Medical Tourism Hubs in Turkey to Verify Clinics and Standards

MTC tours Turkey's leading healthcare destinations - Istanbul, Antalya, Izmir & Bursa to expand patient access to verified dental and medical treatment.

DALLAS, TX, UNITED STATES, July 30, 2025 /EINPresswire.com/ -- MTC, the leading global medical tourism company with 17 years of expertise, advanced its vision of personalized patient support during its 2025 on-site visits.

MTC's Visit to Vera Clinic, Istanbul featuring Advanced OxyCure Hair Transplant Tech

The visit focused on Turkey, which is known for its advanced technology and high healthcare standards. It has become a key destination for dental work, cosmetic surgery, and orthopedic treatments.

“

Our goal is to make quality medical and dental treatment accessible to all. MTC's recent Turkey visit reflects this commitment, carefully vetting each facility to ensure patient trust and value.”

Mr. Deepak Datta, CEO, MTC

With access to medical care becoming increasingly challenging in countries like the US, UK, Canada, Australia, Singapore and Japan, patients are now looking for more economical options abroad.

MTC has guided more than ten thousand patients, offering affordable self-paying options across 50 countries.

Here's a walk-through of MTC's site inspections of leading clinics across Turkey.

ISTANBUL

The journey in Istanbul began at DentSpa Dental Clinic. Awarded “Top European Clinic of the Year 2024” in Odontology, DentSpa has treated over 50,000 patients from the US, Australia, and Europe.

MTC and DentSpa have partnered for over four years to provide exceptional dental tourism

support, and with this recent visit, MTC expands the alliance to include cosmetic surgery and hair transplants.

DentSpa also features a dedicated Guest Experience Manager to ensure every detail of the treatment journey is seamless.

MTC's collaboration with DentSpa provides patients access to world-class dental and cosmetic treatment and significant cost savings in Istanbul.

Next up, MTC conducted an on-site review of Vera Clinic, an ISO-certified center for hair transplants and cosmetic surgeries.

Highlights from MTC's Turkey Site Inspections at Vera Clinic, Istanbul, Turkey

- Clinic offers scar-free procedures and quick recovery
- 18-month post-operative aftercare
- Equipped with OxyCure hair transplant treatment with a 98% success rate
- Strict Adherence to Personal Data Protection Law and Distance Sales Contract

ANTALYA

In Antalya, MTC visited Secil Dental Clinic, recognized for aesthetic dentistry.

Highlights from MTC's Turkey Site Inspections at Secil Dental Clinic, Antalya, Turkey

- Equipped with a Digital Dental Unit matching US technology standards
- Offers a lifetime warranty on dental implants
- Treated 1,200 happy patients from across 15 different countries

IZMIR

MTC visited DentGlow, an ISO certified dental clinic in Izmir. Located in the city's prime area, it

Team MTC with Dr. Erkan at Secil Dental Clinic, Antalya

Team MTC at Turan & Turan Health Group with Dr. Kayhan Turan in Bursa

offers general, restorative, preventative, and cosmetic treatments under one roof. DentGlow also has an exclusive Digital Laboratory for precise dental restorations.

For MTC, seeing DentGlow's tech and team up close means we can confidently guide patients looking for reliable dental care in Izmir.

BURSA

In Bursa, MTC toured Klinik Bursa, a leading dental clinic and Turkey's first and only certified ZAGA Center. The clinic specializes in zygomatic implants, treating patients with severe upper jaw bone loss.

Over six years, the clinic has treated 10,000+ patients and maintains an impressive 98% implant success rate with five-year follow-ups.

MTC's partnership with Klinik Bursa enhances its network of trusted specialists, providing patients access to Turkey's most advanced solutions for complex full-arch implant cases that are often considered untreatable with conventional methods.

MTC's Turkey visit also included Turan & Turan Health Group to evaluate its orthopedic and spine care services for international patients.

As the first clinic in Turkey to introduce robotic technology in orthopedic surgery, it remains the only center performing robotic spine surgery with the Mazor X system.

The team at Turan & Turan is led by Dr. Kayhan Turan, an orthopedic surgeon trained in the U.S., Germany, and Turkey.

MTC's walkthrough reviewed innovations like Navio 7 knee arthroplasty and O-ARM neurological monitoring. It also noted patient-friendly features such as no waiting lists and VIP transfers for medical travelers.

Fourteen clinics across Turkey were assessed during the visit, building strong relationships with each facility. These efforts ensure patients get a hassle-free travel when choosing treatment abroad.
