

Convene Brings Board Portal for Healthcare to CHI & EXPO 2025 to Empower Community Healthcare Governance

Convene brings its board management software for healthcare to CHI & EXPO 2025, supporting community health center boards with governance tools.

CHICAGO, IL, UNITED STATES, July 30, 2025 /EINPresswire.com/ -- [Convene](https://www.convene.com), the leading board portal for healthcare organizations, will be joining thousands of healthcare decision-makers at the 2025 National Association of Community Health Centers (NACHC) Community Health Institute (CHI) & EXPO, taking place August 17–19 at the Hyatt Regency Chicago.

This year’s summit focuses on how health centers are reshaping care delivery, reducing healthcare costs, and advancing health equity through innovation and equity-driven leadership.

Convene proudly supports this mission by offering compliance-ready board management software for healthcare, designed to meet the evolving needs of community-led healthcare systems across the country.

As community health centers (CHCs) across the United States scale operations, governance has become more critical than ever. Today’s public health challenges, such as navigating rapid growth, multi-site operations, and expanded service lines, require stronger coordination and oversight.

To lead effectively, CHC boards need modern, flexible tools.

[Convene’s board portal for healthcare](https://www.convene.com) helps organizations keep pace with this growth by simplifying how boards plan meetings, build agendas, and manage documents, while ensuring transparency and structure.

As a result, CHCs can easily assign tasks, track progress, and act on decisions in real-time without relying on scattered tools. Boards can now focus on what matters most—expanding clinical services, managing funding, and fostering partnerships.

Compliance is critical for healthcare, especially for CHCs governed by HRSA, HIPAA, and other federal and state-level standards. Convene's board portal for health center boards ensures that all board operations meet the highest security and compliance standards.

Compliance is critical for healthcare, especially for CHCs governed by HRSA, HIPAA, and other federal and state-level standards. Convene's board portal for health center boards ensures that all board operations meet the highest security and compliance standards.

Convene offers features like role-based permissions, digital signatures, secure voting, and complete audit trails. These help CHCs stay prepared for audits and collaborate from different places while ensuring security, regulatory alignment, and operational efficiency.

A unique strength of CHC governance is that a majority of the board members must be patients themselves. While this ensures leadership decisions are deeply rooted in the community, it also demands tools that are accessible, intuitive, and inclusive.

A unique strength of CHC governance is that a majority of the board members must be patients themselves. While this ensures leadership decisions are deeply rooted in the community, it also demands tools that are accessible, intuitive, and inclusive.

Convene's user-friendly, mobile-first design ensures every board member can fully participate, regardless of technical experience. Features like shared annotations, live meeting tools, offline access, and automated reminders keep everyone engaged and aligned with the organization's mission.

Introducing Convene AI, the board portal features Automated Minutes and AI Companion built to eliminate manual work and enhance smarter decision-making. Whether retrieving key details from past meetings or capturing accurate minutes, these capabilities allow health professionals to spend more time leading and less time managing.

From rural clinics to multi-site Federally Qualified Health Centers, CHCs are shaping a healthier, more equitable nation. Convene is proud to support this progress by providing trusted board management software for hospitals and healthcare institutions, helping leadership teams stay accountable, responsive, and mission-driven.

Attending [CHI & EXPO 2025?](#) Visit Convene at Booth 602 to see how the Convene board management software for healthcare can power your governance and help scale your impact.

Convene is an award-winning board portal, widely used by thousands of boards and committees in over 100 countries, ranging from Fortune 500 and FTSE 100 companies, public and private organizations, financial, healthcare, and educational institutions, and nonprofits. Convene champions and implements meeting best practices, enabling organizations to uphold governance through a single secure technology platform that supercharges physical, remote, or hybrid meetings.
