

Beat Cancer Foundation Partners with OncoSure Testing to Launch OncoSure™ Advanced Cancer Screening Technology

Beat Cancer Foundation Partners with OncoSure Testing to Launch OncoSure™ Advanced Cancer Screening Technology. Early detection saves lives!

SAN DIEGO, CA, UNITED STATES, August 4, 2025 /EINPresswire.com/ -- The Beat Cancer Foundation is proud to announce a groundbreaking partnership with OncoSure Testing to bring OncoSure™ Advanced [Cancer Screening](#) Technology to patients nationwide. This unprecedented advancement in cancer detection sets a new industry standard, empowering individuals with a rapid, highly accurate blood test capable of detecting human cancers at the earliest possible stage - even before conventional staging begins.

The graphic features the OncoSure Testing logo at the top left, with a DNA helix icon. Below it, the text reads: "ULTRA-FAST DETECTION OF ALL HUMAN CANCERS AT STAGE -I USING A SIMPLE BLOOD DRAW". To the right, under the heading "The Process", is a vertical flowchart with four steps: "Consultation" (with a person icon), "Blood draw" (with a syringe icon), "Oncosome Enumeration" (with a microscope icon), and "Results" (with a checkmark icon). At the bottom left, there is a photograph of a female healthcare professional in blue scrubs smiling and examining the arm of an elderly female patient. At the bottom right is the Beat Cancer Foundation logo, which includes a globe icon and the text "BEAT CANCER FOUNDATION".

Traditional cancer screening methods often fall short, limited in scope, invasive, time-consuming, and costly. OncoSure changes everything.

With just a simple blood draw, OncoSure's advanced cancer screening test can detect human cancers in their earliest, pre-symptomatic stages - even stage -1, and delivers results within 24 hours after the lab receives the specimen. This is more than a test; it's a transformational leap in proactive cancer care.

"Prevention and early detection are our best weapons against cancer," said David A. Caravantes, Executive Director of the Beat Cancer Foundation. "By partnering with OncoSure Testing to deliver OncoSure™, we're ensuring that everyone - regardless of background or income - has access to the fastest, most comprehensive screening available. Detecting cancer before

symptoms appear gives people the chance to act early and dramatically improve their chances of survival.”

Why This Partnership Is a Game-Changer

□□ Rapid Results

Get results in just 24 hours after the lab receives the specimen, compared to traditional 2–3 week wait times.

□□ Unmatched Accuracy

With 98.44% sensitivity, 97.15% specificity, and 97.77% overall accuracy, OncoSure sets a new benchmark in cancer diagnostics, reducing false positives and false negatives.

□□ All-Cancer Detection

Unlike tests that screen for only a few types, OncoSure detects human cancers, offering unmatched peace of mind.

□□ Affordable and Accessible

Thanks to this partnership, OncoSure is available at 61% less cost than other advanced cancer screenings, making life-saving technology financially accessible.

□□ Insurance-Friendly

OncoSure accepts most major PPO and Commercial insurance plans, including Medicare and Medicaid. Patients should verify coverage with OncoSure directly.

Get Tested Through Beat Cancer Foundation and Save

Whether you're an individual, a company supporting your employees, or part of a group, you can save by using a BCF discount code and gain access to the most advanced, affordable, and comprehensive cancer screening available today.

Join the Movement: Detect Early. Act Fast. Save Lives.

Cancer often develops silently. Traditional screening methods can be invasive, expensive, or inaccessible. OncoSure simplifies early detection, making it fast, affordable, and within reach for everyone.

“We are committed to ensuring no one is left behind in the fight against cancer,” the Foundation emphasized. “This partnership reflects our mission to empower individuals with the tools they need to prioritize their health and beat cancer before it even begins.”

Take Control of Your Health Today

Don't wait for symptoms. Early detection saves lives. Make cancer screening a regular part of your healthcare - for yourself and your loved ones.
