

Zenphi Now Available on Google Cloud Partner Marketplace

Zenphi meets Google's rigorous standards for security and quality, now available via Google Cloud Marketplace.

DOVER, DE, UNITED STATES, August 1, 2025 /EINPresswire.com/ -- Zenphi, the leading AI-driven no-code workflow automation platform built for Google Workspace, is now officially available on the Google Cloud Partner Marketplace. This milestone makes it easier than ever for organizations to adopt Zenphi, streamline procurement, and optimize their Google Cloud spend by drawing down on their Google Cloud commit.

Google Workspace automation, simplified.

Zenphi — the #1 no-code Google Workspace automation platform

By listing on the Marketplace, Zenphi has been fully validated by Google for security and compliance. Organizations can purchase Zenphi via a Google Cloud Marketplace Private Offer and have the subscription billed directly by Google — bundled into the same invoice as their Google Workspace licenses or other Google Cloud services.

“

Our mission has always been to make automation effortless. Now, companies can enable Zenphi through Google, leverage their existing Google Cloud commit, and start benefitting from automation faster.”

Vahid Taslimi, CEO at Zenphi

Simplify Procurement and Optimize Spend
Purchasing Zenphi via the Google Cloud Marketplace Private Offer framework means:

- No new vendor setup – Your finance and procurement teams don't need to onboard Zenphi separately.
- Streamlined compliance and security reviews – Zenphi is already vetted by Google for Marketplace inclusion.
- Optimized budget utilization – Zenphi subscriptions purchased through Google Cloud Marketplace can draw

down on your existing Google Cloud commit, maximizing the value of your pre-allocated spend.

Automation Benefits Across Your Organization

Once activated, Zenphi empowers teams to automate workflows across IT and the wider business:

- IT Operations Automation – Automated Google Workspace user lifecycle management, security alerts, and Shadow IT monitoring. Zenphi provides a safe and secure way to leverage the power of [artificial intelligence for IT Operations automation](#)
- HR & Operations – Employee onboarding, access requests, and approvals.
- Finance – Invoice processing, expense approvals, and report generation.
- [AI Workflow Automation](#) – Embed Gemini AI into every process for smarter decisions and faster execution.
- [Autonomous AI Agents in Google Workspace](#) – Build AI-driven agents that manage repetitive tasks, generate content, and trigger workflows across Gmail, Docs, and Drive.

How the Purchase Works

Zenphi is available through the Google Cloud Marketplace Private Offer framework. Contact the Zenphi team to learn the details.

About Zenphi

Zenphi is the only AI-driven no-code automation platform designed specifically for Google Workspace, enabling IT teams and business leaders to connect systems, orchestrate workflows, and securely integrate AI — without the complexity of traditional automation tools. From IT operations to inbox automation, HR, finance, marketing, and sales, Zenphi helps organizations accelerate work and scale with confidence.
