

Weaving Wood by ZKW Studio Wins Bronze in A' Furniture Design Awards

Innovative Walnut Cabinet Featuring Woven Veneer Textile Panels Recognized for Exceptional Craftsmanship and Material Exploration

COMO, CO, ITALY, August 1, 2025 /EINPresswire.com/ -- The prestigious A' Design Award, one of the world's most respected [design competitions](#), has announced [ZKW Studio](#)'s Weaving Wood as a Bronze winner in the [Furniture](#) Design category. This recognition highlights the exceptional craftsmanship and innovative material exploration showcased in the trapezoidal walnut cabinet, which features side panels constructed from a unique woven walnut veneer textile.

The Weaving Wood cabinet's recognition in the A' Furniture Design Awards underscores its relevance to current trends and needs within the furniture industry. By combining the structural rigidity of wood with the pliability of textile, ZKW Studio has advanced furniture design practices, offering a fresh perspective on material integration and manual craftsmanship. This innovative approach provides practical benefits for users, industry professionals, and stakeholders, showcasing the potential for unique material combinations to enhance both functionality and aesthetics in furniture design.

Weaving Wood stands out in the market through its distinctive woven walnut veneer textile panels, which feature a subtle gradient in texture achieved through varying weaving densities. This manual process, not replicable by mechanical means, results in a captivating interplay of light and shadow when the surface is exposed to sunlight. The meticulous alignment of the wood grain contributes to a consistent visual rhythm, further emphasizing the cabinet's unique aesthetic appeal and expert craftsmanship.

Weaving Wood

The Bronze A' Design Award for Weaving Wood serves as a testament to ZKW Studio's commitment to innovation and excellence in furniture design. This recognition is expected to inspire future projects and directions within the studio, fostering further exploration of material integration and manual craftsmanship techniques. As the award highlights the studio's ability to blend form and function effectively, it motivates the team to continue pushing the boundaries of furniture design while maintaining a focus on creating pieces that enhance the user experience and contribute positively to contemporary living spaces.

Weaving Wood was designed by Kewei Zhao, founder of ZKW Studio, in collaboration with textile partner Huining Liu.

About ZKW Studio

Kewei Zhao is a furniture and product designer based in the United States. She holds a degree in Industrial Design from the China Academy of Art and a Master's degree in Furniture Design from the Rhode Island School of Design. In 2024, she founded Studio ZKW, an independent practice focused on developing furniture and objects through material exploration and spatial research. Her work draws from abstract natural references and emphasizes the poetic relationship between nature atmosphere and contemporary living environments.

About Bronze A' Design Award

The Bronze A' Design Award recognizes outstanding designs that demonstrate a notable degree of creativity and practicality. It acknowledges the skill and dedication of designers who create work that stands out for its thoughtful development and innovative use of materials and technology. These designs are recognized for their professional execution and potential to positively influence industry standards. Winning this award highlights the designer's ability to effectively combine form and function, offering solutions that improve people's lives and well-being. The Bronze A' Design Award is a prestigious recognition granted to designs that excel in criteria such as innovative use of material, ergonomic comfort, aesthetic appeal, functionality, durability, environmental sustainability, originality, production efficiency, space optimization, adaptive design, cultural relevance, inclusive design, technological integration, material exploration, user experience enhancement, craftsmanship excellence, design versatility, safety considerations, cost-effectiveness, and market potential within the Furniture Design category.

About A' Design Award

The A' Design Award is an international, juried design competition organized annually since 2008 across all industries, with participation open to entries from all countries. The competition aims to recognize and promote superior products and projects that advance and benefit society, contributing to the creation of a better world. A' Design Awards motivate designers and brands to develop pioneering designs that positively impact the global community by honoring their remarkable achievements and showcasing these innovations on an international stage. The

rigorous selection process involves blind peer review and voting based on pre-established evaluation criteria by an influential and expert jury panel comprising design professionals, industry leaders, journalists, and academics.
