

# Spectruth DAO Breaks New Ground: Deposit Placed for First Mobile PTSD and Trauma Diagnostic Vehicle

*Advancing decentralized, data-driven mental health care with cutting-edge mobile technology*

KYIV, KYIV OBLAST, UKRAINE, August 1, 2025 /EINPresswire.com/ -- [Spectruth DAO](https://www.spectruthdao.com/), a pioneering decentralized autonomous organization dedicated to precision healing in PTSD and trauma care, proudly announces that founder James [Holz](#) has officially placed a deposit for the organization's first mobile diagnostic vehicle. This significant milestone marks a major leap in Spectruth's mission to bring advanced, accessible trauma diagnostics directly to those who need them most.

The launch of this mobile unit comes at a critical time. Recent studies estimate that approximately one in five Ukrainians is currently suffering from post-traumatic stress disorder due to prolonged conflict, displacement, and trauma. Women and veterans are disproportionately affected, with many facing barriers to accessing timely, effective mental health care. Spectruth's mobile diagnostic vehicle is designed to provide high-fidelity PTSD assessments and trauma care to anyone affected, regardless of location or circumstance.

Custom-retrofitted and equipped with advanced diagnostic technology, the mobile clinic will leverage industry-leading tools from key partners. It will provide precision microbiome analysis through microbiome testing kits, real-time brain monitoring using cutting-edge EEG equipment, personalized trauma biomarker detection via DNA and epigenetic test kits, and continuous physiologic data capture with wearable biometric devices. This integration ensures a holistic, data-driven approach to trauma diagnosis and healing.

Spectruth DAO

Importantly, the mobile diagnostic vehicle will be configurable and deployable wherever it is needed most. Not only will it serve trauma survivors in Ukraine and other conflict zones, but it will also provide critical support during future natural disasters and emergencies globally, enabling rapid on-site PTSD diagnostics and facilitating timely, evidence-based intervention. This flexibility embodies Spectruth's long-term commitment to decentralized, community-governed mental health innovation that transcends borders.

James Holz, co-founder of Spectruth DAO, stated, "This deposit represents more than a vehicle—it marks a bold leap into the future of mental health care. With millions affected by trauma worldwide and immense unmet needs, our goal is to decentralize trauma diagnostics, making cutting-edge, data-backed healing accessible wherever it's needed most. We are deeply committed to pioneering technology and community governance to transform lives globally."

“

This deposit represents more than a vehicle—it marks a bold leap into the future of mental health care.

innovation, and sustainable impact.

This milestone opens the door to collaboration with investors, partners, and the wider blockchain and mental health communities who share a vision of reshaping the future of trauma care through technology, transparency, and empathy.

[About](#) Spectruth DAO

Spectruth DAO is a decentralized autonomous organization focused on validating and delivering

ibogaine therapy and advanced PTSD diagnostic protocols through mobile clinics and data-driven precision medicine. By harnessing blockchain governance and cutting-edge biotechnology, Spectruth empowers a global community to co-create scalable, equitable solutions for trauma healing.
