

Spectruth DAO Reaches New Milestone with Deployment of First Mobile PTSD and Trauma Diagnostic Vehicle

Bringing cutting-edge decentralized diagnostics & healing directly to trauma survivors in conflict zones, disaster areas, and underserved communities worldwide

KYIV, KYIV OBLAST, UKRAINE, August 2, 2025 /EINPresswire.com/ -- [Spectruth](https://www.einpresswire.com/) DAO, a pioneering decentralized autonomous organization dedicated to advancing precision healing for PTSD and trauma, proudly announces a major milestone: the placement of a deposit on its first mobile PTSD and trauma diagnostic vehicle. This innovative unit represents a transformative leap in making advanced, data-driven diagnostic and treatment services accessible to those most in need, wherever they are.

Spectruth's mobile diagnostic vehicle will be custom retrofitted to serve as a state-of-the-art trauma assessment center on wheels, equipped with a suite of cutting-edge biomarker technologies. These include precision microbiome testing to explore the vital gut-brain axis, real-time EEG monitoring to assess brain wave activity affected by trauma, advanced DNA and RNA biomarker profiling for personalized insights, and wearable biometric devices to continuously track physiological health.

“

Our vision has always been to bring healing directly to trauma survivors, no matter where they are,”

James Holz

By deploying this mobile clinic, Spectruth breaks new ground in delivering decentralized health services—offering on-site, scientifically rigorous PTSD

diagnostics that reach survivors in remote or conflict-impacted regions such as Ukraine, as well as areas impacted by natural disasters or other crises. This flexible, scalable platform will help close critical gaps in mental health care accessibility and equity.

“Our vision has always been to bring healing directly to trauma survivors, no matter where they are,” said James [Holz](#), founder of Spectruth DAO. “Placing the deposit for this mobile diagnostic vehicle is a powerful step forward in our mission to decentralize trauma care and make precision healing tools truly accessible. We are building a future where no one suffering from PTSD feels alone or underserved.”

Spectruth DAO’s initiative is made possible through strategic partnerships with leading technology providers. Microbiome testing kits supplied by Microbiome DAO (@microbiomedao), EEG equipment from Elata Bioscience (@Elata_Bio), genetic and epigenetic test kits from Muhdo Health (@Muhdohealth), and biometric wearables from @axon combine to deliver a comprehensive, multi-layered diagnostic approach that is unmatched in the field.

This mobile diagnostic vehicle will function as a critical triage hub, enabling front-line teams to perform thorough assessments and facilitate appropriate referrals to Spectruth’s sister ibogaine therapy clinics and research sites. Beyond current conflict zones, the vehicle’s modular design allows rapid redeployment to future disaster or emergency locations, ensuring trauma care remains adaptive

and resilient.

Spectruth DAO's breakthrough offers more than innovation—it signals a new era of empowerment for trauma survivors, veterans, women, and underserved populations worldwide. By fusing decentralized science with compassion and community governance, Spectruth is redefining trauma healing on a global scale.

As this flagship mobile unit launches into operation, Spectruth DAO welcomes collaboration with researchers, clinicians, investors, and mental health advocates committed to advancing equitable and decisive care for PTSD. Together, we will build a brighter, more hopeful future for everyone affected by trauma.

About Spectruth DAO

Spectruth DAO is a decentralized autonomous organization committed to revolutionizing PTSD and trauma care through the fusion of blockchain governance, advanced biomarker diagnostics, and pioneering ibogaine therapy protocols. Spectruth empowers a global community to co-create transparent, accessible, and scientifically validated healing solutions, with a special focus on vulnerable groups such as veterans and women.
