

AI-DEBATE Opens Early-Bird Pre-Sale, Bringing Multi-Agent 'Investment Masters' to Real-Time Decision-Making

AI-DEBATE combines 3-minute data snapshots and 7-minute AI debates to deliver unbiased, replayable investment insights in only 10-minutes.

CHIYODA, TOKYO, JAPAN, August 4, 2025 /EINPresswire.com/ -- [ChainBow](#) Co. Ltd., a Tokyo-based AI research company, today opened the early-bird pre-sale for [AI-DEBATE](#), the first investment-research platform where multiple AI agents—digital avatars of legendary investors—debate both the bullish and bearish sides of any thesis. In a single, replayable 10-minute session the platform delivers the clarity that hours of conventional research often fail to provide.

AI Debate

How a Session Works

Stage 1 · 3-Minute Snapshot

Investment success is about transforming noise into clarity and action—AI-DEBATE turns hours of conflicting analysis into ten minutes of decisive insight.”

*Li Long, Founder and CEO,
ChainBow Co. Ltd.*

AI-DEBATE surveys real-time news, price action, historical charts, fundamentals, and sentiment data to build a concise overview. Each agent digests the same inputs yet arrives at its own conclusion.

Stage 2 · 7-Minute Structured Debate

You then invite AI representations of renowned investors—think Warren Buffett or Charlie Munger—to argue for and against the asset from their distinct philosophies. Some avatars embrace short-term news flow; others ignore it to protect a long-term lens. The result

is a point-counterpoint that surfaces blind spots and produces a balanced recommendation you can revisit anytime.

Why It Matters

- * Vertical-Domain AI Breakthrough — After coding unicorn Cursor proved AI's value in software, AI-DEBATE pioneers decision support in finance.
- * Bias-Balanced Insight — Bull vs. bear arguments expose hidden assumptions single-agent tools miss.
- * Time-Efficient Rigor — Ten minutes replaces hours of manual reading, with every step timestamped for audit or sharing.
- * Replayable Learning — Investors can rewatch the debate to refine their own reasoning and track how views evolve.

Closed Beta & Public Road Ahead
AI-DEBATE is now in closed beta covering U.S. equities and cryptoassets, with additional markets coming soon. A public beta is scheduled for release in roughly one month, and expansion to Hong Kong, mainland China, and sovereign bonds is on the 2025 roadmap.

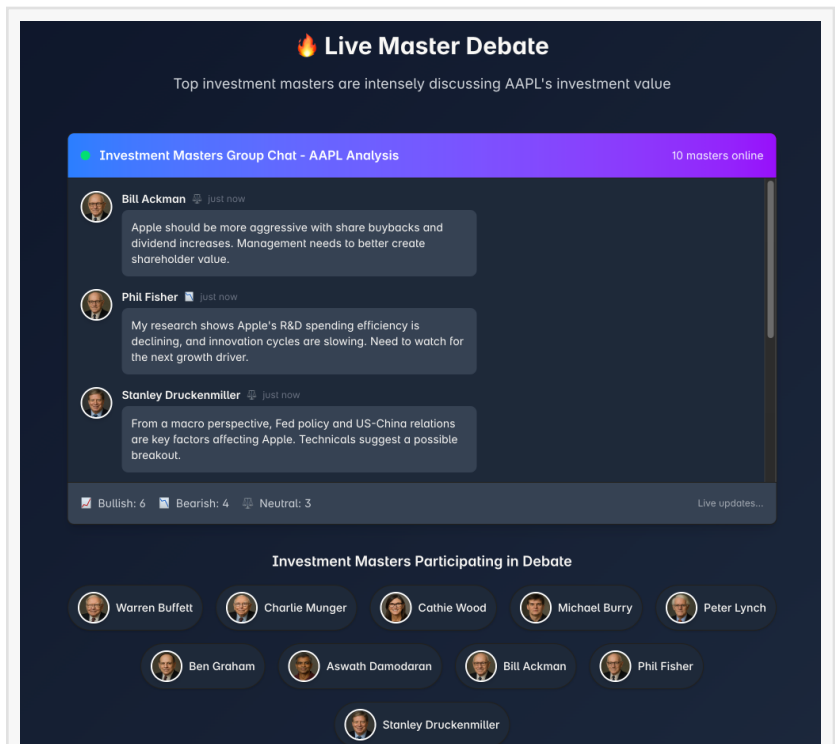

Early-Bird Exclusive Offer
33 % First-Year Discount
