"As enterprises pivot to intelligent, data-driven transformation, process excellence is not optional. Our signavio partnership sap is a significant advancement in the ability for organizations to reimagine and execute sap process redesign strategies better," said Nikhil Agarwal, Founder of BPX. "Our goal is to take process complexity and provide competitive advantage."

BPX has always been an enabler for digital transformation - for organizations throughout all industries - helping them committed to supporting complex SAP redesign services that align to their strategic business outcomes. BPX will leverage the capabilities of the [SAP Signavio](#) to bring visibility, collaboration, and agility to process optimization resulting in real time capabilities for clients to recuperate incongruences, simulate change, and impact their enterprise.

“Our clients are focused on clearly defining their SAP business architecture with speed and structure, especially during transitions like S/4HANA migrations or global ERP rollouts; with BPX SAP Signavio, we bring them the tools, experience, and frameworks to succeed,” said Rupal Agarwal, Co-founder of BPX. “This partnership will change the way businesses navigate process redesign in the SAP ecosystem.”

The SAP process redesign journey with BPX and Signavio starts with diagnostic assessments to understand process gaps, then moves to the blueprint widget, simulation and change implementation as defined against business goals and user-centric design principles to ultimately mitigate risk and optimize ROI when iterating agile change.

Joining the Signavio partner program also creates tighter integration with SAP's entire digital core, ensuring BPX clients experience seamless flow between their process design and execution while enhancing their organizational agility.

BPX summarizes the key benefits of its Signavio partnership SAP as mentioned:

- > Comprehensive discovery and modeling for enterprise-scale SAP redesign services
- > Best-practice driven approach to complete process standardization
- > Continuous monitoring and optimization with SAP Signavio Analytics
- > Accelerated S/4HANA migration with tailored SAP Business Architecture approach
- > Agile governance and stakeholder alignment across functions

This partnership sets BPX up as the leader in the process transformation ecosystem and equips organizations with the capabilities to future-proof their business with visibility and control. BPX combines deep domain expertise and technology with the SAP Signavio capabilities providing organizations with a powerful mix of strategy and technology.

BPX is a

With more than 12 years of experience across 12 different countries, BPX has built a reputable name in [SAP Business Architecture](#), digital transformation, and enterprise enablement.

BPX works in sap process redesign, sap business architecture, sap redesign services, and is now further enriched by its sap signavio partnership.
