

Donglify Launches Team Member Accounts: A Smarter Way to Share USB Dongles

Donglify received an important update - Team Member Accounts were added. This feature makes sharing USB dongles with your colleagues easier.

RESTON, VA, UNITED STATES, August 4, 2025 /EINPresswire.com/ -- Electronic Team, Inc. is proud to introduce an update for [Donglify](#) - one of its leading products for USB dongle sharing. Today company launched a brand-new Donglify feature: Team Member Accounts. This innovative update makes new ways for organizations to manage dongles with their employees. With Team Member Accounts, each user gets their own "mini-account," offering enhanced control, flexibility, and security compared to traditional personal subscriptions.

A graphic with a dark blue background and a network pattern. At the top left is the Donglify logo. To its right is a white rounded rectangle containing the text "New Features". Below this, on the left, is a large blue USB dongle icon with a white key symbol. To its right are three horizontal sliders: the top two are blue and the bottom one is pink with a white mouse cursor pointing at it. Further right is a grid of four user avatars: the top two are blue and the bottom two are pink, with a white plus sign and a mouse cursor in the bottom right corner. Below the grid, the text "Now with **Team Accounts!**" is displayed in white, followed by "Invite your teammates to manage your USB dongle" in a smaller white font. At the very bottom, a white bar contains the text "Donglify added Team Member Accounts".

New Features

Now with **Team Accounts!**
Invite your teammates to manage
your USB dongle

Donglify added Team Member Accounts

Key Features of Team Member Accounts:

Access Control: Instead of sharing a single personal account, users in a group can now have their own individual "mini-accounts," making it easier to manage who has access to which devices. This ensures a higher level of security and a better user experience.

Fine-Tuning: Team Member Accounts allow you to add or delete users anytime. Additionally, you can limit the number of connections for each user, offering more customization and flexibility for your team's needs.

Financial Benefit: For businesses or teams, using a Team Member Account is more cost-effective

than purchasing multiple standalone personal subscriptions. Now, you can manage all your users within a single, affordable plan.

Donglify's Team Member Accounts feature is ideal for businesses, organizations, or teams that require efficient, secure device sharing while maintaining flexibility and cost-effectiveness. This update simplifies your workflow and provides a seamless collaboration experience.

Donglify's new feature is now available to all users of [the Advanced and Enterprise plans](#). For more information, visit <https://www.donglify.net/en/>
