

California Creative Solutions Inc. Achieves HIPAA Certification, Reinforcing Commitment to Healthcare Data Security

POWAY, CA, UNITED STATES, August 4, 2025 /EINPresswire.com/ -- California Creative Solutions, Inc. today announced that it has officially achieved compliance with the Health Insurance Portability and Accountability Act (HIPAA), a U.S. federal law designed to protect sensitive patient health information, following a rigorous six-month audit conducted by London Cert Limited. This achievement validates CCS's comprehensive safeguards for protected health information (PHI) across all operations, positioning the company as a trusted partner for healthcare organizations and federal health IT initiatives.

California Creative Solutions Inc. Achieves HIPAA Compliance Certification, Reinforcing Commitment to Healthcare Data Security

A Compliance Framework Built for Modern Healthcare Challenges

The certification confirms [CCS Global Tech](#)'s implementation of 50+ administrative, physical, and technical controls, including:

- **Advanced Access Management:** Role-based permissions with mandatory multi-factor authentication for all PHI systems.
- **Military-Grade Encryption:** SSL 1.2 encryption for data in transit and Azure-standard encryption for data at rest.
- **Proactive Monitoring:** Real-time security alerts and comprehensive audit logs for all PHI access.
- **Workforce Training:** Annual HIPAA certification for 100% of employees with specialized modules for technical teams.

HIPAA is a U.S. federal law that sets the standard for safeguarding Protected Health Information (PHI). Compliance ensures that organizations meet strict requirements for the confidentiality, integrity, and availability of electronic health data.

"With healthcare data breaches increasing 45% year-over-year (HIPAA Journal, 2024), this certification demonstrates our commitment to operational excellence. Whether supporting EHR implementations or healthcare analytics projects, our clients can trust that every byte of PHI is protected by enterprise-grade controls." said Raminder Singh, Founder & Group CEO.

Why This Matters for Clients?

- **Regulatory Confidence:** CCS Global Tech adheres to stringent federal requirements, reducing compliance risks for healthcare partners.
- **End-to-End Security:** From encrypted data storage to automated logoffs, every touchpoint is secured.
- **Proactive Governance:** Regular audits, third-party penetration testing, and documented policies ensure ongoing compliance.

Ongoing Commitment to HIPAA & Data Security

HIPAA compliance is an ongoing priority at CCS. We are committed to:

- Regularly reviewing and updating our HIPAA practices.
- Conducting periodic internal audits and risk assessments.
- Providing ongoing HIPAA and security training for all employees.
- Implementing continuous threat monitoring and risk mitigation.
- Enhancing our infrastructure to address emerging threats.
- Pursuing additional security and compliance frameworks.

These efforts reflect our dedication to maintaining the highest standards of data protection and regulatory compliance.
