

SolarisTech Launches Global BWM Training Series Ahead of 2025 Paris and Tokyo MoU PSC CIC

Free Course, Strategic PSC Bundle, and Full Support for Crews, Operators, and Students Now Available

HOUSTON, TX, UNITED STATES, August 4, 2025 /EINPresswire.com/ --

SolarisTech, a leading provider of maritime compliance training and digital inspection solutions, has launched a new Ballast Water Management (BWM) training series to support crews, operators, and institutions ahead of the 2025 Concentrated Inspection Campaign (CIC) jointly announced by the Paris and Tokyo MoUs.

Running from September 1 to November 30, 2025, the campaign will target compliance with the Ballast Water Management Convention

(BWMC). SolarisTech's Learning Series aligns directly with actual PSC deficiency codes and is designed for rapid learning by crew, cadets, and training institutions - helping shipowners, operators, and maritime academies meet campaign requirements efficiently and effectively.

□ Free STCW-Compliant Course Now Available

To increase accessibility, SolarisTech has launched a free, open-access course for immediate training deployment:

□ Ballast Water Management Plan – Understanding and Compliance (Covers PSC Code 14801)

<https://academy.swiftaction.ai/courses/14801>

This STCW-compliant course provides practical instruction on how to implement, maintain, and audit a compliant Ballast Water Management Plan. Topics include recordkeeping, operational procedures, exchange standards, and inspection preparedness. Ideal for onboard crew, officers, cadets, and compliance officers.

□ A certificate of completion is issued upon passing the final assessment.

□ 8-Course PSC Inspection Bundle – Fully Aligned with CIC Focus
The premium BWM CIC 2025 Compliance Bundle includes eight modules aligned with the exact PSC deficiency codes used by Paris and Tokyo MoU inspectors:

14802 – Ballast Water Record Book

14804 – Ballast Water Exchange

14805 – Sediment Removal and Disposal

“

Our goal is to give every crew member, cadet, and operator the tools to pass PSC inspections with confidence - aligned with real codes, real standards, and real results.”

Thomas Blenk, Chief Training Officer of SolarisTech

14806 – Crew Training and Familiarization

14809 – Exemptions Under BWM Convention

14810 – Port Discharge Violation

14811 – BWMS Operation and Approval

14899 – Other - (Advanced Ballast Water Management: Contingency and Compliance)

This cost-effective training solution is ideal for commercial fleets, maritime academies, and vessel compliance teams seeking focused, inspection-ready learning that is both practical and regulation-based.

□ Access the full training bundle now at:

□ <https://academy.swiftaction.ai>

□ Student Discount Program

Students enrolled at accredited maritime institutions are eligible for a discount on the full BWM training bundle.

PSC Code Aligned Training - STCW 1/6 Compliant

☐ To receive a discount code, email admin@solaristechsystems.com from your school-issued email address and include your name, institution, and field of study.

☐☐☐ Led by STCW-Certified Instructor Thomas H. Blenk

The SolarisTech Learning Series is led by Thomas H. Blenk, Chief Training Officer and a certified instructor under STCW Regulation I/6. His credentials include:

- Graduate of the United States Merchant Marine Academy (USMMA)
- U.S. Coast Guard Licensed Engineering Officer
- Harvard-trained executive in maritime leadership and regulatory strategy
- Instructor at an IACS-member maritime academy
- Former Program Leader for the IMO RO Oversight Program at a top-tier classification society
- Former Deputy Commissioner of Maritime Affairs, overseeing international vessel audits, inspections and technical authority

Mr. Blenk's leadership ensures all SolarisTech Learning Series courses meet both regulatory and operational standards required for onboard deployment and PSC review.

☐ Built for Shipboard, Shoreside, and Classroom Use

The SolarisTech Learning Series provides:

- Rapid-access digital courses (free and premium)
- Self-paced learning on desktop and mobile
- STCW-aligned final assessments with instant certification
- Fleet and classroom-ready training backed by real PSC codes
- Onboard crew training and audit readiness
- Support for DPAs, fleet managers, academies, and independent learners

This system is engineered for seamless integration into training programs across vessel operations, management offices, and maritime education environments.
