

INNOCN Announces Back-to-School Price Drops on 49-Inch Ultrawide Monitors for Students and Creators

Back-to-School Season Sees New Price Lows for INNOCN 49Q1R and 49C1R Monitors

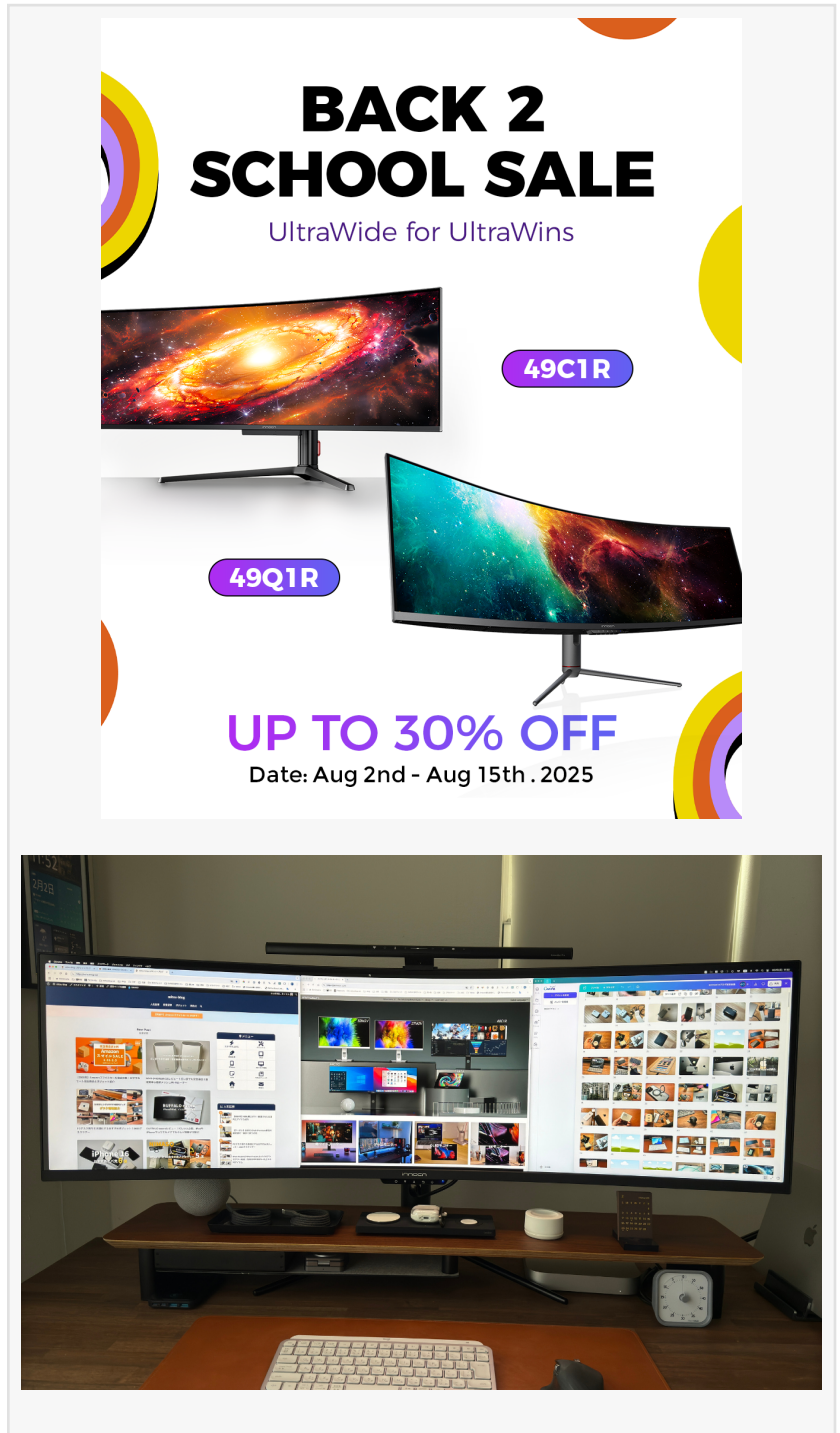

SHENZHEN, CHINA, August 5, 2025 /EINPresswire.com/ -- As students, creators, and remote professionals prepare for a new academic season, [INNOCN](#) has announced its lowest-ever pricing on two of its flagship 49-inch ultrawide monitors. From August 2 to August 15, 2025, the INNOCN [49Q1R](#) and [49C1R](#) are available on Amazon at limited-time, record-low prices.

Designed for multitasking, content production, immersive gaming, and hybrid learning environments, these super ultrawide monitors combine performance and convenience in a streamlined form factor — making them ideal for students building out their setups ahead of the semester.

- INNOCN 49Q1R: Now \$712.02 (regularly \$999.99)
- INNOCN 49C1R: Now \$617.49 (regularly \$794.98)

Optimized for Academic Workflows and Creative Routines

With an ultra-wide 32:9 aspect ratio

The promotional graphic features the text "BACK 2 SCHOOL SALE" in large, bold, black letters, with "UltraWide for UltraWins" in smaller purple text below it. It displays two monitors: the 49Q1R (flat panel) and the 49C1R (curved panel), both showing vibrant space-themed wallpapers. The 49Q1R is labeled with a purple badge "49Q1R" and the 49C1R with a purple badge "49C1R". At the bottom, it says "UP TO 30% OFF" in large purple letters, followed by "Date: Aug 2nd - Aug 15th . 2025". The photo below shows a desk setup with the 49Q1R monitor displaying a multi-panel interface, a keyboard, and a mouse.

and Dual QHD resolution (5120 × 1440), both monitors deliver the viewing space equivalent to two full-sized screens. This layout supports seamless multitasking—perfect for students managing research documents, virtual classrooms, and video projects side-by-side without the need to toggle between tabs or devices.

Built-in Picture-by-Picture (PBP) and Picture-in-Picture (PIP) modes allow multiple inputs to be displayed simultaneously, supporting a range of workflows across laptops, desktops, tablets, and consoles.

Precision Display Meets Performance Gaming

For those who switch between work and play, the 49Q1R model features a 144Hz refresh rate and Adaptive-Sync technology, ensuring fluid gameplay and responsive visuals—ideal for fast-paced gaming and next-gen consoles. Both monitors offer HDMI 2.1, USB-C, and DisplayPort connectivity, making them compatible with PS5, Xbox Series X, high-performance PCs, and MacBooks.

The HDR400 support, 99% sRGB color gamut, and 1800R curvature create an immersive visual environment ideal for design students, content editors, and film majors seeking high-fidelity display capabilities.

Comfort, Efficiency, and Minimal Cable Clutter

Comfort and ergonomic design were top priorities in the development of these displays. Eye-care features such as blue light reduction and flicker-free technology help reduce fatigue during extended use. Meanwhile, USB-C Power Delivery (up to 90W) enables laptop charging directly from the monitor—minimizing desktop clutter and making cable management effortless. Whether it's a late-night editing session or a multi-hour study block, the INNOCN ultrawide monitors are built to support extended focus, visual clarity, and high efficiency.

The Back-to-School Ultrawide Monitor Promotion runs from August 2 to August 15, 2025, with both models available exclusively through Amazon. Quantities may be limited due to seasonal demand.
