Following a comprehensive, independent evaluation, BB Energy received the EcoVadis “Committed” Badge, recognising strong performance across key environmental, social, and governance (ESG) areas. This rating reflects BB Energy’s transparency, structured ESG framework, and dedication to continuous improvement.

The EcoVadis assessment measures 21 sustainability criteria across four core pillars:

1. Environment
2. Labour & Human Rights
3. Ethics
4. Sustainable Procurement

"This recognition marks an important step forward in our sustainability journey," said Mohamed Bassatne, BB Energy's CEO. "It affirms the progress we've made so far—and more importantly—provides a clear pathway to doing even better in the years ahead."

The EcoVadis platform also provides detailed feedback, helping BB Energy identify opportunities to further embed sustainable practices across all areas of its operations. Initiatives are already underway to build on this foundation and improve future scores.
