### What Are The Driving Factors Impacting The Automobile Weather Strip Market?

The growth of the automobile weather strip market is forecasted to be fueled by an upswing in the automotive sector. The automotive industry, which involves various entities engaged in the creation, development, production, advertising, and sale of vehicles, is experiencing a surge due to escalating consumer demand for electric cars, technological progress, and increasing urbanization which is driving up vehicle sales. Automobile weather strips play a crucial role in the automotive industry, performing tasks that improve both vehicle efficacy and the comfort of the passengers. To illustrate, a study conducted by the European Automobile Manufacturers Association, a standard group based in Belgium, reported that global new car sales experienced a nearly 10% growth in March 2024 after stabilizing in 2022, with EU sales climbing almost 14% to reach a total of 10.5 million units. The sales of new battery-electric cars surged by 37%, grabbing a market share of 14.6%, while global car production touched 76 million units, indicating a substantial rise of 10.2%. Thus, the escalation in the automotive industry is propelling the automobile weather strip market.

### Which Players Dominate The Automobile Weather Strip Industry Landscape?

Major players in the Automobile Weather Strip Global Market Report 2025 include:

- 3M Company
- Hutchinson SA
- Toyota Boshoku Corporation
- Akzo Nobel N.V.
- The Freudenberg Group
- Toyoda Gosei Co. Ltd.
- REHAU Industries SE & Co. KG
- Trelleborg AB
- MINTH Group Ltd.
- Cooper Standard

### What Are The Future Trends Of The Automobile Weather Strip Market?

Key players in the car weather strip sector are concentrating on inventing groundbreaking technologies such as hot-stamping technology to enhance sealing effectiveness and visual appeal. Hot-stamping technology is a method of production whereby metallic or colored foils are transferred onto a surface using heat and force, resulting in both decorative and practical markings. For instance, Toyoda Gosei Co. Ltd., a Japan-based company that produces rubber and plastic components specifically for automobiles, inclusive of car weather strips, introduced a front grille in October 2023, incorporating a freshly developed hot-stamping technology. This grain is a part of the new Lexus LM model. The product's novelty lies in its state-of-the-art foil technology, which negates the requirement of a protective top coat for defending against weathering and ultraviolet rays. By exploiting an advanced understanding of plastic materials, the corporation has crafted a more weather-resistant, thicker protective layer for the foil, maintaining the resilience of past products. This enhancement leads to a reduction of CO2 emissions by 20% during production by doing away with the need for top coat application, thus

saving resources.

### [Global Automobile Weather Strip Market Segmentation](#) By Type, Application, And Region

The automobile weather strip market covered in this report is segmented –

- 1) By Material: Ethylene Propylene Diene Terpolymer Membrane (EPDM) Rubber, Polyvinyl Chloride (PVC) Rubber, Thermoplastic Elastomer Or Rubber (TPE)
- 2) By Vehicle Type: Passenger Cars, Compact, Mid-Size, Sport Utility Vehicle (SUV), Luxury, Light Commercial Vehicles (LCVs), Heavy Commercial Vehicles (HCVs)
- 3) By Sales Channel: Original Equipment Manufacturer (OEM), Aftermarket
- 4) By End-User: Doorframe, Windows, Roof Rail, Windshield, Trunk

Subsegments:

- 1) By Ethylene Propylene Diene Terpolymer Membrane (EPDM) Rubber: EPDM Rubber Seals For Door Frames, EPDM Rubber Window Seals, EPDM Rubber For Roof And Windshield Seals, EPDM Rubber For Trunk And Tailgate Seals
- 2) By Polyvinyl Chloride (PVC) Rubber: PVC Rubber Seals For Exterior Trim, PVC Rubber For Door And Window Sealing, PVC-Based Weather Strips For Sealing Joints
- 3) By Thermoplastic Elastomer Or Rubber (TPE): TPE Weather Strips For Doors And Windows, TPE Seals For Trunk And Tailgate, TPE-Based Molded Weather Strips For Vehicle Frames, TPE Seals For Automotive Exterior And Interior Parts
