Scott J. Manning, MBA

"'Private Practice 2.0, Welcome To The New Era Of Dentistry' provides valuable insights on how to build a highly profitable, health-centered dental practice that not

only serves patients but helps dentists live the life they've always dreamed of," states Manning. "Dentists can embrace today's Consumer-Driven Revolution, where patients demand more value, personalization, and focus on their long-term health, and still enjoy a highly profitable and fulfilling practice."

The "Private Practice 2.0" eBook reveals:

- The 3 Pillars of the New Era Practice and how dentists can provide a solid foundation for a totally different model in the way dentistry is presented, delivered, and financially rewarded;
- The unstoppable forces now reshaping dentistry and why it's important to harness these trends and apply them to a dental practice before it's too late;
- How an offhand, negative comment from a cynical, burnt-out dentist could be the key to unleashing greatness in a dental practice and life;
- A simple operational framework that makes a dental team unstoppable in the pursuit of high-

value dentistry;

- Why profit provides the “Rocket Fuel” when it comes to multiplying wealth;
- Two overlooked income streams that can compress decades of wealth-building into just a few short years;
- How to reverse engineer the “Magic Number” that makes everything in life finally work the way it should (it’s so simple, but it has eluded at least 9 out of 10 dentists for decades);
- The secret to regaining control over a practice and ensuring every day is filled with quality patients experiencing the comprehensive dentistry they deserve; and
- How to define a practice, align it with the greatest opportunities in the marketplace, and become a leader in health and transformation... and more!
