

The Good Feet Store Opens in Fairlawn to Help Local Residents and Workforce Live the Life They Love

The Leading Retailer of Premium, Personally-Fitted Arch Supports Expands with the Fifth Store in the Cleveland Area

FAIRLAWN, OH, UNITED STATES, August 6, 2025 /EINPresswire.com/ -- [The Good Feet Store](#), recognized nationally as the market-leading manufacturer and retailer of premium, personally-fitted arch supports, announced the upcoming opening of their newest location in Fairlawn on August 21st.

“We’re very pleased to continue growing The Good Feet Store presence with the fifth store in the Cleveland area. Market expansion not only supports our business, it supports our customers in their journey to live the life they love with less pain,” said Jonathan Cotten, long-term franchise owner and CEO of Easy Step Enterprises.

Situated at 3893 Medina Rd, Ste B, the Fairlawn store will be one of over 300 open in the United States and is part of a strategic growth initiative that stands to open approximately 40 locations in 2025. As with all the brand’s stores, the Fairlawn location will offer customers a no-obligation, free, personalized in-store fitting with a trained Good Feet Arch Support Specialist.

For more than 30 years, The Good Feet Store has been an innovator in foot health and wellness — and it starts with Good Feet Arch Supports. Consisting of three types of arch supports, the Good Feet Arch Supports System works in concert to provide better pain relief, performance, balance and comfort. By focusing on all four arches in the foot, the supports are designed to keep the foot in the ideal position for the body, which helps to

eliminate the pain felt in the feet, knees, hips and back. Proper alignment and support has helped thousands of customers return to the lives they love - from everyday work and activities to unforgettable trips and experiences.

“Everything is connected,” said Pamela Mehta, MD, a board-certified orthopedic surgeon and Chief Medical Officer of Modern Performance + Recovery Brands. “Oftentimes people with low back pain, knee pain, or hip pain don’t even recognize that it’s actually coming from the poor support they have in their feet.”
