What Are The Key Driving Factors For The Growth Of The 1-Decanol Market?

The surge in demand for personal hygiene and domestic cleaning products in the wake of the COVID-19 pandemic has fueled the expansion of the 1-Decanol market. As a key ingredient in the production of soaps, detergents, and other household products, and a defoaming agent, 1-Decanol's demand has risen. The pandemic, in 2020, heightened the use and awareness of home care products like soaps, detergents, and sanitizers in an effort to curb virus transmission. As per the World Health Organization's guidelines, frequent washing of hands with soap and water or the use of alcohol-based hand rubs are crucial preventative measures. The growing usage of personal hygiene products such as soaps and sanitizers has intensified the need for 1-Decanol, consequently propelling the development of the 1-Decanol market.
