Technological up gradation in appliances is majorly attracting consumers to buy and replace their old home appliances. Many appliance manufactures are upgrading products to stand apart from their competitors. Thus, dishwashers are now available with built-in and portable

technologies, which is further anticipated to positively influence the global portable dishwasher market throughout the forecast period.

In the recent past, the home appliances sector has been enduring with some influential trends, which has successfully gained the attention of the target customers. Improved aesthetic trend is one of those influential factors that help drive the demand for home appliances such as portable dishwashers. Black turns out to be the most preferred color among the customers even when it comes to buying any kind of kitchen appliance. Taking this view into consideration, some of the key manufacturers in the global kitchen appliances market have been adopting several key product strategies. For instance, Whirlpool Corporation is one of the key players in the global portable dishwasher market that strategizes on coming up with majority of its appliances in black stainless with rich matte look, making it attractive and alluring for its customers.

By distribution channel, the e-commerce segment was valued at \$561.6 billion in 2020, and is expected to reach \$1,318.7 billion by 2030, registering a CAGR of 11.0% from 2021 to 2030. This is attributed to easy accessibility offered by online platforms make them a popular medium for the purchase of white goods products. In addition, easy availability of information and demo provided about the appliances and the facility of home delivery foster the sale of portable dishwasher through the e-commerce segment.

On the basis of end user, the commercial segment is estimated to reach \$5,669.9 billion by 2030, at a CAGR of 9.5%. This is attributed to the fact that development of the food services industry and expansion of food chain outlets are creating demand for dishwashers, microwave ovens, and vacuum cleaners in hospitality and food services industries, hospital & clinics, government & commercial complexes, and manufacturing industries.

Region wise, Asia-Pacific was the major share contributor in the portable dishwasher market, followed by North America in 2020. There is an increase in the adoption of smart kitchen appliances due to rise in trend of modular kitchen among consumers which has led the growth of the market. Increase in penetration of international brands in South Asian countries including China has been widening the product offerings of Asia Pacific.

Analyst Review

According to the insights of CXO perspective, rapid expansion of the retail industry plays a major role in the distribution of white goods products such as portable dishwashers. It is becoming

more important to make portable dishwasher available to the consumers. Specialty stores and supermarket & hypermarkets are expanding rapidly, owing to the availability of enormous options for consumers to choose from. Multi-brand specialty stores have many brands for the single line product segment, where people can compare their features and colors, which help them to take buying decisions.

Increase in number of commercial & government complexes in various end user industries of the white goods products such as hotels & restaurants, food outlets, hospitals & clinics, and cleaning agencies is creating huge demand for air conditioners, portable dishwasher, washing machines, microwave ovens, and vacuum cleaners. People are actively taking interest in the improvement of homes and kitchens with smart home appliances, which is further contributor to the growth of the portable dishwasher market during the forecast period.
