

OKW's New Configurable STYLE-CASE Enclosures For Handheld Electronic Devices

OKW's STYLE-CASE enclosures enable electronics engineers to specify individual configurations tailored to their handheld electronic device.

BRIDGEVILLE, PA, UNITED STATES, August 11, 2025 /EINPresswire.com/ -- OKW Enclosures has announced new enhancements to its [popular STYLE-CASE series](#), designed for handheld electronics in medical, social care, household, office, and industrial environments. The enclosures feature a sleek, high-gloss finish that offers a premium tactile experience while remaining easy to clean—ideal for hygiene-sensitive applications.

STYLE-CASE is available with accessories for easy configuration.

Various accessories for the STYLE-CASE allow for the device to be wall mounted, sealed to IP 65 and battery powered.

Designed for functionality and durability, STYLE-CASE enclosures feature a recessed operating panel to safeguard membrane keypads and an integrated battery compartment that accommodates two AAA batteries (sizes S, M) or two AA batteries (size L). Size L is also offered without a battery compartment. All models are assembled using tamperproof Torx screws, meeting stringent requirements for healthcare applications. Optional IP 65 ingress protection is available for the larger versions.

“Specify STYLE-CASE for handheld electronics in the medical field and industrial technology.”
Sean Bailey

Engineers have three sizes to choose from in traffic white ASA for UV resistance or black PMMA for infrared permeability.

OKW also provides full [customization services](#) for STYLE-CASE, including CNC machining, lacquering, printing, laser marking, decorative foils, special materials, and accessory installation.
