

US Moving Manual - Blows the Whistle on Multi-Billion Dollar Moving Industry Scams

Learn how to spot scams, avoid rogue movers, and protect your move with expert tips from US Moving Manual — the truth they don't want you to know.

WASHINGTON, DC, UNITED STATES, August 7, 2025 /EINPresswire.com/ -- With over \$20 billion flowing through the U.S. moving industry every year, consumers are more vulnerable than ever to fraud, price-gouging, and bait-and-switch scams — especially during peak moving seasons. In response to the growing wave of complaints and financial devastation left behind by rogue moving companies, [US Moving Manual](#) has launched a powerful online platform exposing the truth behind these operations — straight from industry insiders.

Backed by firsthand knowledge and experience within the moving world, US Moving Manual is pulling back the curtain on the industry's darkest secrets — revealing how unsuspecting families are manipulated, overcharged, and even held hostage by illegal carriers and deceptive brokers.

"Most consumers don't realize how bad it really is until it's too late. We've seen families quoted \$3,000, only to be forced into paying \$9,000 to get their stuff back," says the founder of US Moving Manual.

According to the Federal Motor Carrier Safety Administration (FMCSA), over 13,000 moving-related complaints are filed each year — many of which involve fraudulent pricing, hostage situations, and property theft. Experts estimate that over \$1 billion is scammed from moving consumers annually.

To combat this epidemic, US Moving Manual has released a short, affordable course that walks users step-by-step through identifying red flags, verifying real carriers, avoiding broker traps, and

ensuring your belongings aren't held for ransom.
