

# Lung Cancer & Asbestos Victims Center Urges the Family of a Plumber Who Has developed Lung Cancer and Who Prior to 1983 had Exposure to Asbestos to Call About Compensation-It Might Be Hundreds of Thousands of Dollars

WASHINGTON , DC, UNITED STATES, August 12, 2025 /EINPresswire.com/ -- The Lung Cancer &

Asbestos Victims Center says, "We are urging a plumber who had routine exposure to asbestos on the job before 1983 and who has recently learned they have lung cancer to please call us anytime at 866-714-6466 for a serious conversation about compensation. As we would like to

“

"Most plumbers who had asbestos exposure before 1983 and then develop lung cancer never get compensated because they don't know \$30 billion-dollar asbestos trust funds were set up for them too."

Victims Center*

discuss compensation for a plumber who has developed lung cancer and who was exposed to asbestos at work before 1983 might be well over a hundred thousand dollars.

"We are also urging the wife or adult children of a former plumber who now has lung cancer and was working as a plumber or plumber's helper before 1983 to please call us at 866-714-6466. Before 1983 a plumber would have had regular exposure to asbestos because pipes were frequently insulated with asbestos, plumbing pumps

contained asbestos, hot water tanks frequently contained asbestos, and boilers were typically coated with and or insulated with asbestos. Our appeal is nationwide-from California to Florida, Ohio, New York, New Jersey, Illinois, Washington, Texas, Alaska, and any other state.

"Saddest of all is most plumbers who had exposure to asbestos on the job before 1983 and then develop lung cancer never get compensated because they are not aware the \$30 billion-dollar asbestos trust funds were set up for them too. If this sounds like your loved one, please call us

anytime at 866-714-6466. We have extremely skilled lawyers who can help."

Important checklist for an individual or veteran seeking compensation if they had significant exposure to asbestos on the job before 1983 and they now have lung cancer:

- \* The individual or veteran must have been exposed to asbestos prior to 1983 at their place of work or in the armed forces.
- \* The lung cancer diagnosis must have been recent, and preferably in the last one or two years.
- \* The individual's or veteran's exposure to asbestos must have been substantial and must have involved exposure to asbestos involving more than one product. The ideal individual or veteran who now has lung cancer is one who worked as a mechanic, machinist, worked at a shipyard, at an oil refinery, chemical plant, factory, at a power plant worked as an electrician, welder, as a construction worker, plumber or pipefitter, or a member of a repair crew-maintenance crew.
- \* The individual or veteran must be able to get specific about how, where and when they were exposed to asbestos-if they hope to receive the best possible financial compensation results.

The Advocate says, "We do not want to overwhelm a individual or veteran who now has asbestos exposure lung cancer with a long checklist-but to get compensated-all of these things will be necessary. Our appeal is nationwide. If the person, we have just described sounds like your husband, dad or relative--please share this article with them or their family and have them call us at 866-714-6466." <https://LungCancerAsbestosVictimsCenter.Com>
