LOS ANGELES, CA, UNITED STATES, August 11, 2025 /EINPresswire.com/ -- Critically acclaimed

singer-songwriter [Firerose](#), releases new single "SHINING ARMOR," off of her new album of the same name. The single and entire album was inspired from the darkest times in her life, including a disturbing abusive relationship and her fight with addiction- (she is 9 years clean and sober now.) Her trauma became international news, not by her own choice but rather as part of a vicious smear campaign of misinformation meant to silence her from speaking and writing about her personal experience. As the true artist she is, Firerose pulls inspiration from her

It was not my choice to be abused but it was my choice to survive, it showed me that God can and will get you through anything.”

grief, scars and revelation. Concurrently, close friend and DV advocate Erin Molan began sharing her own harrowing experiences of domestic abuse, through deeply personal diaries with fellow survivor Firerose. From those raw and unfiltered words, the anthem SHINING ARMOR was born.

SHINING ARMOR is a defiant ballad that speaks to anyone who feels powerless in their own life, reminding them they can reclaim it with faith in God, and in themselves. The deeply personal album weaves themes of courage, liberation and awakening across soaring pop-country anthems and sweeping cinematic compositions.

Erin recently shared her own experience of domestic violence for the first time after decades of silence. “I hope the lyrics resonate not only with other victims and survivors but with anyone who has had to learn the hard way that sometimes there is no 'knight in shining armor' coming to rescue them. This song is about strength, hope and courage. We cannot control everything that happens to us but we can ALWAYS try and fight back and reclaim our power. I believe meeting Firerose is one of the greatest blessings of my

life and she's so passionate about our shared mission to help and inspire others." - Erin Molan

Firerose is speaking openly for the first time about her own horrific experience, with hopes of drawing attention to the hidden plight of survivors and has dedicated herself to the fight against Coercive Control, championing its criminalization across the United States, as it is now in Australia.

"I'm so grateful that Erin's friendship created a sacred space for us to share our most vulnerable experiences. I believe our connection was divinely driven, weaving together our scars and strength into a song for those still searching for their voice. This song expresses truths that far too many survivors carry alone. For years I held my pain quietly, but now I've found my voice, not just for me but to empower others to rise and speak up. SHINING ARMOR is a battle cry for every soul who's had to become their own hero, transforming pain into courage and unshakable faith." - Firerose
