

Unmanned Aerial Vehicle (UAV) Market Size, Share, Trends, Growth, Segmentation and Forecast

Surge in military spending and increase in demand for enhanced surveillance solutions fuel the growth of the global unmanned aerial vehicle market.

WILMINGTON, DE, UNITED STATES, August 11, 2025 /EINPresswire.com/ -- [Unmanned aerial vehicle \(UAV\) market size](#) generated \$24.72 billion in 2020, and is expected to reach \$70.91 billion by 2030, witnessing a CAGR of 11.7% from 2021 to 2030.

Increase in military spending and rise in demand for improved surveillance solutions drive the growth of the global unmanned aerial vehicle (UAV) market. However, expensive nature of UAV solutions restrains the market growth. On the other hand, defense modernization and new contracts and agreements with military forces create opportunities in the coming years.

The growth of the global unmanned aerial vehicle (UAV) market is driven by surge in the use of the unmanned aerial vehicle (UAV) solutions for the military, law enforcement and commercial & civil applications.

Moreover, increase in inclination toward high end technology based surveillance and imaging system for mining, construction and agricultural front are the key factors supporting the growth for unmanned aerial vehicle (UAV) market over the forecast period. In 2020, by considering the application of the unmanned aerial vehicle (UAV), civil & commercial segment has witnessed leading market share. Moreover rotary wing unmanned aerial vehicle (UAV) is expected to witness a leading market growth and dominate the market share by end of the forecast period.
