

ILX Selects Harvest by Dasseti to Elevate ESG and Investment Data Management

Harvest by Dasseti's AI-powered ESG platform to streamline ILX's climate and SDG reporting, delivering trusted private market data and measurable impact.

AMSTERDAM, NETHERLANDS, August 12, 2025 /EINPresswire.com/ -- [Harvest by Dasseti](#), the [AI-powered ESG data and investment intelligence platform](#), is pleased to announce that [ILX](#), an

Amsterdam-based asset manager specializing in global development finance co-investments, has selected Harvest to streamline ESG workflows across its private credit investments. With a focus on Climate Finance and the UN Sustainable Development Goals (SDGs) in Emerging Markets, ILX will use the platform to enhance data-driven decision-making and strengthen investor reporting.

“

Partnering with Dasseti marks a key milestone in scaling our ESG, Impact and Climate data capabilities. As our portfolio grows, so does the need for efficient, automated data management and workflows.”

Luz Martinez, Head of Sustainability, ILX

ILX will leverage Harvest’s powerful AI capabilities to accelerate data validation and reporting across its portfolio of co-investments with multilateral development banks and development finance institutions.

This decision underscores Harvest’s growing recognition as the go-to platform for private market investors seeking trusted, private ESG data, improved compliance, and actionable sustainability insights. The partnership is aligned with ILX’s commitment to deliver impactful investments with a sustainable framework.

“We’re thrilled to welcome ILX to the Harvest community,” said Wissem Souissi, CEO and Founder of Dasseti. “This collaboration reflects the strength of our platform in addressing the complexities of ESG investing in private markets, and our shared vision for delivering measurable impact and investment performance.”
