

CEREC same-day crown pricing in Auckland: convenience meets advanced technology

Dr Dave Richards Dentist Auckland outlines the average cost of CEREC crowns in Auckland and how the technology's benefits compare to traditional methods.

ST HELIERS, AUCKLAND, NEW ZEALAND, August 12, 2025 /EINPresswire.com/ -- In Auckland, CEREC crowns typically cost between \$1,800 and \$3,000, a range comparable to many traditional crown procedures when considering the complete treatment value as seen here <https://www.drdaeverichards.nz/posts/what-is-the-cost-of-cerec-same-day-crowns-in-auckland>

At Dr Dave Richards Dentist Auckland (09-886-7022) patients can now access CEREC same-day crowns, a treatment that combines modern chairside technology with the efficiency of single-visit dentistry.

Traditional crowns require multiple appointments and temporary restorations, but CEREC uses a digital scanner and in-clinic milling system to design, craft, and fit a permanent crown in just one visit. This efficient process can reduce time off work, minimize travel requirements, and eliminate the inconvenience of wearing a temporary crown for several weeks.

The pricing reflects both the high-grade ceramic materials and the significant investment in CEREC equipment plus the specialized training required to operate it. Many patients find this worthwhile, particularly when considering the saved time and the precision of the digitally guided fit.

For busy professionals, the time-saving aspect often equals the clinical result in importance. "Patients value walking in and leaving with a permanent crown the same day - it's a combination

What is the cost of CEREC same-day crowns in Auckland?

\$1,800 – \$3,000

of quality and convenience," says Dr Richards.

Insurance policies typically treat CEREC crowns the same as traditional crowns, with coverage often ranging from 50-80% of the total cost, depending on the plan. Flexible payment options, such as staged payments over several months, are also commonly available.

Patients considering crown treatment should compare options, considering not just cost but also dentist expertise, available technology, and the durability of the chosen material. More details on CEREC same-day crowns and other restorative options can be found at:
