Important Industry Updates:

Diabetic Ketoacidosis market

On May 10, 2022, new research from a real-world study by Joseph Bledsoe, MD and his colleagues of Intermountain Medical Center, found that using balanced crystalloids like lactated Ringer instead of saline solution reduces the risk of major adverse kidney events (MAKES). For intravenous isotonic crystalloid infusion, common options are balanced crystalloids and ordinary 0.9% saline solution. Both are inexpensive and generally accessible.

On January 5, 2023, Spinnaker International LLC, BPGC Management LP, and R Investments now own the majority of Nurse Assist LLC, the company that produces medical water products under the Stericore Solutions name. With a concentration on USP sterile water and saline, prefilled flush syringes, and sterile saline wound flush and irrigation kits, Stericore is an independent specialist manufacturer of medical grade saline and water products.
