

# Ecommerce Platforms are Evolving with the Rise of AI-powered Agentic Shopping

*AI agents are changing shopping forever by revolutionizing customer experience with the promise of effortless buying, boosting satisfaction and conversions.*

LAS VEGAS, NV, UNITED STATES, August 13, 2025 /EINPresswire.com/ -- AI-

powered Agentic shopping is the new norm of ecommerce. Agentic shopping is intelligent and can deliver a seamless buying experience to the customers. It can handle every step of the buying process, from product discovery to cost

comparison, personalized recommendations, and secure checkout. After all, in the ecommerce industry, the faster and smarter the delivery, the better the buyers' experiences. The demand for AI-powered agentic shopping is surging as younger shoppers are increasingly expecting instant, personalized and conversational buying experience.

“

With AI agents, there will be a rise in autonomous shopping providing a seamless, hands-free experience to customers.”

*GoodFirms*

For these reasons, modern eCommerce companies are integrating AI-powered agentic shopping facilities into their platforms with the help of [ecommerce development companies](#). The AI-powered agents are created to assist the customers through the entire buying process while streamlining operations for merchants. AI Agents with its intelligent algorithms helps the users by personalizing their search based on past purchases, browsing behaviour,

seasonal trends, comparing and even purchasing the products on behalf of consumers. The AI agents for merchants can gather insights directly from customers, handle queries, optimize customer engagement and process orders instantly.

“To be future ready, most of the businesses are adopting ecommerce development services to build and integrate smart AI agents for providing smooth interactive buying experience,” says GoodFirms
