# Lovell Partners with NeuroCatch to Bring Innovative Neuro-Health Assessment Technology to Federal Healthcare Providers

PENSACOLA, FL, UNITED STATES, August 14, 2025 /EINPresswire.com/ -- Lovell® Government Services, a Service-Disabled Veteran-Owned Small Business (SDVOSB), has announced a new partnership with NeuroCatch Inc., a leader in neuro-health assessment technology. Together, the companies will serve major federal healthcare systems, including the Veterans Health Administration (VHA), the Military Health System (MHS), and the Indian Health Service (IHS).

NeuroCatch Partner Logo

At the center of this partnership is the NeuroCatch® Platform—a portable, non-invasive medical device that measures cognitive brain function in minutes. The platform provides objective insights into auditory sensation, attention, and cognitive processing at the point of care, helping clinicians deliver personalized treatment and advance neuro-health practices.

> " We're proud to partner with NeuroCatch to deliver innovative brain health assessment tools to those who have served our country."

> *Chris Lovell, CEO of Lovell Government Services*

Through Lovell's SDVOSB status and extensive federal contracting expertise, the NeuroCatch® Platform is now available on multiple government purchasing vehicles, including the Department of Veterans Affairs' Federal Supply Schedule (FSS), GSA Advantage and the Defense Logistics Agency's Electronic Catalog (ECAT). This streamlines acquisition for federal agencies while supporting SDVOSB procurement goals.

"We're proud to partner with NeuroCatch to deliver innovative brain health assessment tools to those who have served our country," said Chris Lovell, Major, USMC (Ret.), CEO of Lovell Government Services. "This technology has the potential to significantly improve care for

veterans and military patients."

"Partnering with Lovell Government Services is a significant milestone for NeuroCatch," said Derek Norsworthy, CEO at NeuroCatch. "Lovell's expertise in navigating federal healthcare systems will help us bring our technology to clinicians who are dedicated to serving those who have served our nation."
