

U A I by Osamu Oji Wins Bronze in A' Interface Awards

Innovative XR Workshop Recognized for Exceptional User Experience and Accessibility

COMO, CO, ITALY, August 14, 2025 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [interface](#) design, has announced [Osamu Oji](#)'s innovative work, "U A I," as the Bronze winner in the Interface, Interaction and User Experience Design category. This prestigious recognition highlights the significance of Oji's exceptional design within the interface industry, positioning it as a groundbreaking achievement that sets new standards for user experience and accessibility.

The A' Interface, Interaction and User Experience Design Award holds great significance for the industry and its potential customers. By recognizing designs like U A I, the award showcases the importance of creating interfaces that prioritize user needs, accessibility, and seamless interactions. Oji's design aligns with current trends in the interface industry, demonstrating how innovative solutions can break down barriers and enable inclusive participation in creative processes, ultimately benefiting users, the industry, and society as a whole.

U A I stands out in the market for its unique fusion of a secret-base aesthetic with cutting-edge XR technology. The transformed 50-year-old warehouse serves as a sleek, AI-managed space where devices like 3D printers are seamlessly controlled via a smartphone app. The design's remote manufacturing capabilities, powered by XR technology, eliminate barriers related to disabilities, distance, or technical expertise, ensuring an inclusive and accessible experience for all users. This innovative approach reshapes how people connect with craftsmanship, fostering

collaboration, entrepreneurship, and fresh creative potential.

The recognition from the A' Interface Awards serves as a motivation for Osamu Oji and his team to continue pushing the boundaries of interface design. The award inspires future projects that prioritize inclusivity, accessibility, and user-centric experiences. By setting a new standard in the industry, U A I has the potential to influence interface design practices and encourage further innovation in the field, ultimately contributing to the creation of more inclusive and empowering digital environments.

About Osamu Oji

Osamu Oji is the founder and representative of USEYA Corp., a Japan-based company developing XR software for smart glasses. With a background in wearable technologies, he applies XR in remote manufacturing and skill transfer. USEYA works with public and private sectors to build accessible digital environments that support social inclusion and regional development through practical technology.

About Useya Advanced Industry

Useya Advanced Industry is a design and art-oriented brand that fosters inclusivity and creative access. It develops programs that bridge constraints to support empathetic, community-driven projects.

About Bronze A' Design Award

The Bronze A' Design Award recognizes notable designs that demonstrate creativity, practicality, and the potential to positively influence industry standards. Winners are selected through a rigorous blind peer-review process by an expert jury panel, evaluating entries based on criteria such as user experience optimization, innovative functionality, accessibility considerations, and aesthetic appeal. The Bronze A' Design Award acknowledges the skill and dedication of designers who create solutions that enhance people's lives and contribute to the advancement of the interface design industry.

About A' Design Award

The A' Interface, Interaction and User Experience Design Award is a prestigious international competition that recognizes exceptional design achievements from visionary designers, innovative agencies, and influential brands. With a mission to make the world a better place through the power of good design, the A' Design Award provides a global platform for showcasing creativity, gaining exposure, and inspiring future trends. Entries undergo a rigorous blind peer-review process by an expert jury panel, ensuring that awarded designs meet the highest standards of excellence. Now in its 17th year, the A' Design Award continues to motivate designers and brands to develop superior products and projects that positively impact society. Interested parties are invited to explore past laureates, learn more about the awards, and

participate with their own innovative projects at <https://interfacedesignaward.com>
