What Are The Major Driving Forces Influencing The Animal Antibiotics and Antimicrobials Market

## Landscape?

The animal antibiotics and antimicrobials market is expanding due to an increasing appetite for food products derived from animals. Foods like milk, eggs, meat, and others have a significant place in our diets since they are a key source of nutrition. In order to produce healthy, disease-free livestock, companies and organizations involved in the production of these food products are using animal antibiotics and antimicrobials as precautions. For example, a report by the Food and Agriculture Organization (FAO), a specialized agency of the United Nations based in Italy, forecasted in June 2023 a modest 0.8 percent increase in global meat production for 2023, reaching 365 million tonnes (in carcass weight equivalent), a slight increase compared to 2022. Thus, the growing desire for animal-based food products is anticipated to expedite demand for animal antibiotics and antimicrobials in the forthcoming years.

## Who Are The Top Players In The Animal Antibiotics and Antimicrobials Market?

Major players in the Animal Antibiotics and Antimicrobials include:

- C. H. Boehringer Sohn AG & Co. KG
- Zoetis Inc.
- Elanco Animal Health Inc.
- Merck & Co. Inc.
- Phibro Animal Health Corp.
- Ashish Life Science Pvt. Limited
- Ayurvet Limited
- Dechra Pharmaceuticals Plc
- Endovac Animal Health
- HIPRA S. A.

## What Are The Key Trends Shaping The Animal Antibiotics and Antimicrobials Industry?

Forming strategic alliances is becoming a prevalent trend in the animal antibiotics and antimicrobials market. Companies in this sector are establishing strategic alliances with pertinent industry partners to enhance research and development of innovative animal antibiotics and antimicrobials. For example, in May 2022, Gnubiotics Sciences, a Swiss biotechnology firm dedicated to addressing microbiome-related health issues in humans and animals, formed a collaboration with ADM, an American company that specializes in human and health nutrition solutions, intending to bring new microbiome solutions to the market that enhance the health and wellbeing of companion animals.

## Market Share And Forecast By Segment In The Global Animal Antibiotics and Antimicrobials Market

The animal antibiotics and antimicrobials market covered in this report is segmented –

- 1) By Type of Product: Tetracyclines, Penicillin, Sulfonamides, Macrolides, Aminoglycosides, Lincosamides, Fluoroquinolones, Cephalosporins, Other Antimicrobials And Antibiotics
- 2) By Mode of Delivery: Premixes, Oral Powder, Oral Solution, Injection, Other Modes Of Delivery
- 3) By Animal Type: Food-Producing Animals, Companion Animals

Subsegments:

- 1) By Tetracyclines: Oxytetracycline, Chlortetracycline, Doxycycline
- 2) By Penicillin: Penicillin G, Ampicillin, Amoxicillin
- 3) By Sulfonamides: Sulfadimidine, Sulfadiazine, Sulfamethoxazole
- 4) By Macrolides: Erythromycin, Tylosin, Tulathromycin
- 5) By Aminoglycosides: Gentamicin, Neomycin, Streptomycin
- 6) By Lincosamides: Lincomycin, Clindamycin
- 7) By Fluoroquinolones: Enrofloxacin, Marbofloxacin, Ciprofloxacin
- 8) By Cephalosporins: Cefquinome, Cephalexin, Cefoperazone
- 9) By Other Antimicrobials And Antibiotics: Nitrofurans, Phenicol, Other Novel Antibiotics
