"Stories shape how we see ourselves," says Hawke. "Too many times, women hit a certain age and they are told to fade into the background. That is a tradition I aim to end. When women write themselves as the main characters, they're doing more than telling a tale; they're rewriting the way the world sees them, and the way they see themselves."

Through complex, authentic characters and fearless storytelling, Hawke's novels go beyond entertainment. They challenge outdated archetypes, reclaim personal power, and encourage readers to carry that courage off the page into real life.

According to [sources](#), women over 60 are redefining what it means to start over, embracing new careers, entrepreneurship, and personal reinvention with remarkable resilience. In April 2023, women aged 60 and older comprised 10.6% of the U.S. labor force, up from 6.9% two decades earlier. Additionally, individuals aged 55–64 accounted for nearly 23% of new entrepreneurs in 2021. From launching businesses to pursuing creative passions, these women are proving that

it's never too late to pursue purpose, independence, and success.

"My books celebrate women's resilience with supernatural adventures that never sideline their heroines. I love building worlds filled with flawed, determined, and triumphant women who take control of their own destinies," says Hawke.

Hawke's bestselling Crone Wars series and her Obsidian Sisterhood trilogy invite readers to witness the transformation of women who refuse to be defined by circumstance, proving that fiction can be both a mirror and a map, a reflection of personal truth and a guide toward empowerment.
