Consumers Are Falling Victim to One of America's Fastest-Growing Scams — Here's How to Avoid Becoming the Next Statistic

MANHATTAN, NY, UNITED STATES, August 14, 2025 /EINPresswire.com/ -- The moving industry may seem straightforward, but behind the smiles and packing tape lies a shadow economy of deception. [US Moving Manual](#), founded by former industry insiders, has made it their mission to pull back the curtain. “We’ve seen the tricks firsthand,” says the company’s founder. “From bait-and-switch pricing to outright theft, rogue movers know exactly how to exploit people during one of the most stressful times of their lives.”

The organization’s online short course arms consumers with the exact knowledge needed to avoid these traps — from identifying fake reviews, to spotting illegal contracts, to knowing when to walk away before the first box is loaded.

The Federal Motor Carrier Safety Administration (FMCSA) reports that complaints against movers have more than tripled in the last decade. Many victims lose thousands of dollars, irreplaceable belongings, and months of peace of mind. In many cases, these scammers operate across multiple states under different names, making recovery nearly impossible.
