

Cellairis and Lenovo Partner to Deliver Innovative Mobile Device Solutions for Education and Enterprise

Strategic partnership expands access to Cellairis' trusted mobile accessories and CyberSystem solutions through Lenovo's global distribution network

 **CELLAIRIS®**

ATLANTA, GA, UNITED STATES, August 14, 2025 /EINPresswire.com/ -- [Cellairis](#), a leading provider of mobile device accessories, repair services, and innovative technology solutions, announced a strategic partnership with [Lenovo](#), a global technology powerhouse. This collaboration will bring Cellairis' suite of mobile solutions, including the patented [CyberSystem](#) and Cyber Pouch, to a broader range of educational institutions and enterprise customers worldwide.

“

Partnering with Lenovo enables Cellairis to expand our reach and help schools solve real challenges related to cell phone management and classroom distraction.”

Dale Stubblefield, EVP, Sales & Development of Cellairis

To address cellphone bans taking effect for school systems, Cellairis and Lenovo have joined forces to provide practical, scalable solutions that enhance device management, protection, and productivity. Cellairis' CyberSystem, and Cyber Pouch, a non-lockable, signal-blocking phone pouch designed to reduce mobile distractions while ensuring emergency access, addresses the growing challenge of device use in classrooms.

Addressing the Challenges of Mobile Device Management

With increasing mobile restrictions in K-12 schools, managing device use and minimizing distractions have become critical priorities. The CyberSystem supports these efforts by enabling secure, controlled storage of mobile devices during critical periods, promoting focus without compromising accessibility or safety.

Expanding Reach Through Lenovo's Extensive Network

Through Lenovo's global distribution and the Lenovo 3rd Party Option (3PO) program, Cellairis' products will be accessible to a wider audience of resellers, education technology providers, and

enterprise IT departments. This partnership reflects both companies' commitment to delivering innovative, reliable solutions that extend device lifespan, improve user experience, and support distraction-free environments.

"Partnering with Lenovo enables Cellairis to expand our reach and help schools solve real challenges related to cell phone management and classroom distraction," said Dale Stubblefield, Executive Vice President of Sales and Business Development of Cellairis. "Our CyberSystem offers a unique blend of security, convenience, and innovation, and Lenovo's trusted platform will accelerate its availability to school systems that need it most."

Cellairis' full product lineup, including the CyberSystem, Cyber Pouch, mobile accessories, and repair services, is now available through Lenovo's reseller network and distribution channels. Customers interested in learning more about how these solutions can benefit their organizations are encouraged to contact Cellairis at cybersystem@cellairis.com or contact their Lenovo representative.

###
