

House GR31 by Stephan Maria Lang Wins Bronze in A' Architecture Awards

Stephan Maria Lang's Exceptional Private Residence Design Receives International Recognition in the A' Architecture, Building and Structure Design Award

COMO, CO, ITALY, August 15, 2025 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [architecture](#) design, has recently announced [Stephan Maria Lang](#) as a winner in the Architecture, Building and Structure Design category. Lang's exceptional work, titled "House GR31," has been honored with the prestigious Bronze A' Design Award, acknowledging its outstanding design and contribution to the field of architecture.

House GR31

The Bronze A' Architecture, Building and Structure Design Award holds significant relevance for the architecture industry and its stakeholders. By recognizing innovative and functional designs like House GR31, the award promotes the advancement of architectural practices and highlights the practical benefits of well-designed spaces for users and the broader community. This recognition not only celebrates the achievements of talented architects like Stephan Maria Lang but also inspires future innovation and excellence within the industry.

House GR31 stands out as a remarkable example of architectural design, showcasing a harmonious blend of aesthetics and functionality. The white volume of the residence creates a striking contrast against the rough natural stone elements of the garden walls, while the precisely crafted detailing contributes to an atmosphere of sensitive luxury. The free-floating L-shaped living and kitchen space is carefully composed to maximize views, and the use of white plastered walls, wooden oak floors, and local limestone for floors, bathrooms, chimneys, and

walls creates a sophisticated material and color concept that perfectly complements the owner's contemporary art collection.

Receiving the Bronze A' Design Award for House GR31 holds significant implications for Stephan Maria Lang and his architectural practice. This recognition not only validates the excellence of the design but also serves as motivation for Lang and his team to continue pushing the boundaries of architectural innovation. The award may inspire future projects that further explore the harmonious integration of man, nature, and architecture, while maintaining a commitment to craftsmanship and sensitive luxury.

About Stephan Maria Lang

Stephan Maria Lang is an architect from Germany who possesses an extraordinary talent for capturing the unique qualities of a site and seamlessly combining them with the personalities of his clients. His works are distinguished by their hidden details, surprising views, and the interplay of light and shadow. Lang's approach involves integrating landscape, garden, and interior into a holistic masterpiece of architecture, known as a Gesamtkunstwerk. While embracing the latest technologies for comfort and energy efficiency, Lang's designs are also inspired by Japanese thought, an appreciation for patina, and the beauty of imperfection.

About Bronze A' Design Award

The Bronze A' Design Award recognizes outstanding architectural designs that demonstrate creativity, practicality, and the potential to positively influence industry standards. This prestigious award acknowledges the skill and dedication of designers who produce work that excels in its thoughtful development, innovative use of materials and technology, and professional execution. Bronze A' Design Award-winning designs are recognized for their ability to effectively combine form and function, offering solutions that enhance the quality of life and contribute to the advancement of the architecture field. The award criteria include innovative use of space, structural integrity, aesthetic appeal, environmental impact, functional efficiency, material selection, technological integration, social relevance, cultural sensitivity, economic viability, design originality, user comfort, energy efficiency, adaptability to change, use of natural light, spatial harmony, safety measures, accessibility considerations, resilience to weather, and integration with surroundings.

About A' Design Award

The A' Design Award is an international, juried design competition that has been recognizing and promoting superior products and projects across all industries since 2008. With a mission to make the world a better place through the power of good design, the A' Design Award motivates designers and brands to develop innovative solutions that positively impact society. The rigorous selection process involves blind peer review by an influential and expert jury panel of design professionals, industry leaders, journalists, and academics. By showcasing pioneering designs on

a global stage and celebrating the creative minds behind them, the A' Design Award drives a cycle of inspiration and advancement in the design world.
