

Crystal by Tzuhsiang Lin Wins Bronze in A' 3D Printing Industry Awards

*Innovative 3D Printed Home Decor Design
Recognized for Its Unique Interplay of
Light and Shadow*

COMO, CO, ITALY, August 15, 2025 /EINPresswire.com/ -- The A' Design Awards, one of the world's most prestigious [design competitions](#), has announced that [Crystal](#), a remarkable 3D printed home decor design by [Tzuhsiang Lin](#), has been honored with the Bronze A' 3D Printed Forms and Products Design Award. This highly respected award recognizes the innovative design and exceptional craftsmanship of Crystal within the competitive field of 3D printing and product design.

Crystal's recognition in the A' 3D Printed Forms and Products Design Award category highlights its relevance to current trends and needs within the 3D printing industry. The design aligns with the industry's focus on creating functional, aesthetically appealing, and innovative products that enhance user experiences and push the boundaries of what is possible with 3D printing technology.

Crystal stands out for its unique ability to interact with light, creating captivating illuminations and evolving visual experiences throughout the day. The design's precise folding techniques and advanced 3D printing manufacturing result in a multifaceted form that refracts and reflects ambient light, casting intricate patterns onto surrounding surfaces. This dynamic interplay of light and shadow invites moments of stillness and introspection, offering users a calming sensory experience as the light shifts.

Winning the Bronze A' 3D Printed Forms and Products Design Award serves as a testament to

Tzuhsiang Lin's dedication to innovation and excellence in design. This recognition will undoubtedly inspire future projects and explorations within the designer's practice, fostering further creativity and pushing the boundaries of what is possible in the realm of 3D printed home decor.

Crystal was designed by Tzuhsiang Lin, a talented Taiwanese industrial designer based in New York who derives inspiration from careful observations of everyday life and endeavors to establish a link between humanity and the natural world.

About Tzuhsiang Lin

Tzuhsiang Lin is a Taiwanese industrial designer based in New York. He derives inspiration from careful observations of everyday life and endeavors to establish a link between humanity and the natural world, incorporating these insights into his work. He maintains that design has the potential to elevate individuals and their lifestyles through sensitivity and compassion towards the environment. Furthermore, he asserts that design can serve as a subtle medium for advancing cultural and emotional wellbeing.

About Bronze A' Design Award

The Bronze A' Design Award recognizes outstanding designs that showcase creativity, practicality, and professional execution. It acknowledges the skill of designers who produce work that stands out for its thoughtful development and innovative use of materials and technology. Winning designs are recognized for their potential to positively influence industry standards and enhance people's lives. The Bronze A' Design Award is a prestigious recognition granted to designs distinguished by their ingenuity, attention to detail, and ability to blend form and function effectively. The award considers criteria such as innovative material use, structural integrity, printability, functional efficiency, aesthetic appeal, design complexity, sustainability, customizability, cost-effectiveness, user interaction, technological advancement, production speed, post-processing requirements, design versatility, scalability, durability, safety measures, ergonomic design, assembly ease, and market potential.

About A' Design Award

The A' 3D Printed Forms and Products Design Award is a prestigious international competition that recognizes exceptional creativity and innovation in the field of 3D printing and product design. Organized annually since 2008, the A' Design Award welcomes entries from a diverse range of participants, including designers, agencies, companies, and influential entities across all industries and countries. By participating in this rigorous competition, entrants have the opportunity to showcase their talents, gain global recognition, and contribute to the advancement of the 3D printing industry. Winning an A' Design Award provides a platform for designers to elevate their status within the competitive landscape and inspire future trends in design. The ultimate aim of the A' Design Award is to recognize and promote superior products

and projects that advance and benefit society, driven by a philanthropic mission to create a better world through the power of good design.
