

# From Potholes to Progress: EZ Street® and Pothole Patrol Take on Liberty's Streets

*Two weeks. One mission. Pothole Patrol and EZ Street® Asphalt prove faster, longer-lasting road repairs save money and build trust.*

LIBERTY, SC, UNITED STATES, August 15, 2025 /EINPresswire.com/ -- For the next two weeks, Liberty will be the latest proving ground for a movement that's bigger than just road repair. [Pothole Patrol](#), powered by [EZ Street® Ambient® Asphalt](#), is here to show what government efficiency can look like when the right tools, materials, and mindset are in place.

This isn't just maintenance, it's a mission. The Pothole Patrol is a nationwide initiative demonstrating that fixing something as basic as a pothole should be done once, done right, and done fast. By replacing outdated, short-term fixes with performance-proven EZ Street® technology, the team is challenging cities to rethink how public works get done.

## Why Liberty?

Potholes don't care about party lines, weather, or zip codes; they hit every driver the same way. Liberty is now part of a growing list of towns where the Pothole Patrol is showing that:

- Efficiency pays off – While EZ Street may cost more upfront, it dramatically reduces repeat repairs, saving taxpayer dollars in the long run.
- Performance matters – Works in any weather, on wet or dry pavement, with no tack coat required. Traffic-ready the moment it's compacted.
- Government can work smarter – First-principles thinking, choosing the most effective solution instead of the cheapest quick fix—delivers better roads and better value.

For the next two weeks, the CyberBeast, our high-tech repair vehicle, and King Asphalt will run live demos and spark conversations about what efficiency in government really looks like.

The mission is clear: If we can fix the roads, we can fix the system.
