

KEUTEK Expands Premium Solar-Powered Charging Solutions for Outdoor Enthusiasts and Emergency Preparedness

ALPHARETTA, GA, UNITED STATES, August 15, 2025 /EINPresswire.com/ -- KEUTEK, an American manufacturer of fast-charging and solar-powered solutions, announces expanded availability of its flagship portable power products designed for outdoor adventures, travel, and emergency preparedness. The company's product line includes TSA-approved solar power banks, portable power stations, and high-efficiency solar panels backed by lifetime warranties.

The Alpharetta-based company specializes in rugged power solutions that serve adventurers, frequent travelers, and families preparing for emergencies. KEUTEK's core products include the 26W Fast Charging Portable Solar Power Bank featuring a 26,800 mAh (99Wh) capacity with integrated solar panels and wireless charging capabilities, the 300W Portable Power Station built with LiFePO4 technology for camping and off-grid applications, and solar panels ranging from 40W to 100W designed for seamless integration with their power stations.

"At KEUTEK, we believe power should be reliable, fast, and built to last. Our goal is to combine cutting-edge charging technology with rugged, outdoor-ready design so our customers can explore without limits," said Nitin Chandak, CEO of KEUTEK.

Customer experiences demonstrate the products' versatility across diverse applications. Users have reported successful deployments during multi-day hiking expeditions in Peru's Andes Mountains, extended sailing trips, van life adventures, and unforeseen power outages lasting up to 18 hours. The [TSA-compliant 99Wh power banks](#) have proven particularly valuable for international travelers navigating airport security while maintaining device charging capabilities.

The company differentiates itself through comprehensive lifetime warranties on KEUTEK-brand

products, responsive customer support based in the United States, and products engineered to withstand challenging outdoor conditions, including saltwater exposure and extreme temperatures.

KEUTEK's [portable solar charging solutions](#) address growing consumer demand for reliable off-grid power as outdoor recreation participation increases and severe weather events highlight the importance of emergency preparedness. The products serve multiple market segments, including outdoor enthusiasts, remote workers, emergency responders, and families seeking backup power solutions.

About KEUTEK

KEUTEK is an American-owned company headquartered in Alpharetta, Georgia, specializing in premium fast-charging and solar-powered solutions. The company manufactures portable power banks, power stations, solar panels, and charging accessories designed for outdoor adventures, travel, and emergency preparedness.
