

Intramed Medical Centre Sets Standard for Painless Male Circumcision and No-Scalpel Vasectomy

Calgary clinic offers safe, quick, and low-stress circumcision and vasectomy procedures for Alberta families and men.

CALGARY, AB, CANADA, August 19, 2025 /EINPresswire.com/ -- Intramed Medical Centre is providing male circumcision and vasectomy services with a focus on safety, efficiency, and patient comfort. Performing over 1,000 circumcisions and up to 3,000 no-

scalpel vasectomies each year, the Calgary clinic concentrates exclusively on these procedures, allowing the team to develop world-class experience and expertise.

“

By using advanced techniques and focusing on patient comfort, we help reduce fear and stress associated with circumcision and vasectomy.”

Dr. Phillip van der Merwe

Circumcision for Infants, Teens, and Adults

Intramed Medical Centre offers [circumcision for patients of all ages—newborns, adolescents, and adult men](#) using safe and effective methods performed under long-acting local anesthetic. For newborns up to four months old, the procedure takes only one minute, minimizing stress for both the infant and family. Teens (13 and up) and adult men also benefit from this technique, which provides fast recovery, minimal discomfort, and excellent cosmetic

results.

Our approach to circumcision is safe, fast, and virtually painless,” said Dr. Phillip van der Merwe. “Over the past 25 years, we’ve successfully performed thousands of circumcisions, and many physicians refer their patients to us for our proven reliability and gentle technique.”

The clinic’s experienced physicians provide guidance on care, timing, and expected outcomes to reduce anxiety and support smooth recovery.

No-Scalpel Vasectomy for Adult Men

For adult men seeking permanent contraception, Intramed Medical Centre performs the [no-scalpel vasectomy](#), a safe and efficient procedure that typically requires no stitches. This [minimally invasive vasectomy technique](#) allows patients to return to normal activities within a few days, with minimal discomfort and a high success rate.
