

Walgreens Laly Havern, PharmD, BCACP, Joins Learn Look Locate to Lead Fertility Preservation Education in Breast Cancer

Walgreens oncofertility leader Laly Havern expands specialty pharmacy resources and advances global breast cancer education with Learn Look Locate.

TUCSON, AZ, UNITED STATES, August 25, 2025 /EINPresswire.com/ -- [Learn Look Locate](#)—the world's only medically vetted breast cancer platform connecting leading physicians, survivor voices, and vital resources—welcomes [Lalymar \(Laly\) Havern, PharmD, MS, BCACP, Walgreens](#) Director of Clinical Pharmacy Strategy and oncofertility pioneer, to its Medical Advisory Board. She joins a distinguished team of 21 medically esteemed breast cancer physicians, and—alongside Walgreens specialty Pharmacist Alex Cosimano—makes pharmacy representation in LLL's advisory board uniquely impactful for patients everywhere. This collaboration builds on Walgreens' nearly four years of partnership with Learn Look Locate, expanding specialty pharmacy resources and advancing global education for patients navigating the complexities of cancer treatment and survivorship.

MEDICAL ADVISOR

Laly Havern

PHARM D, MS, BCACP

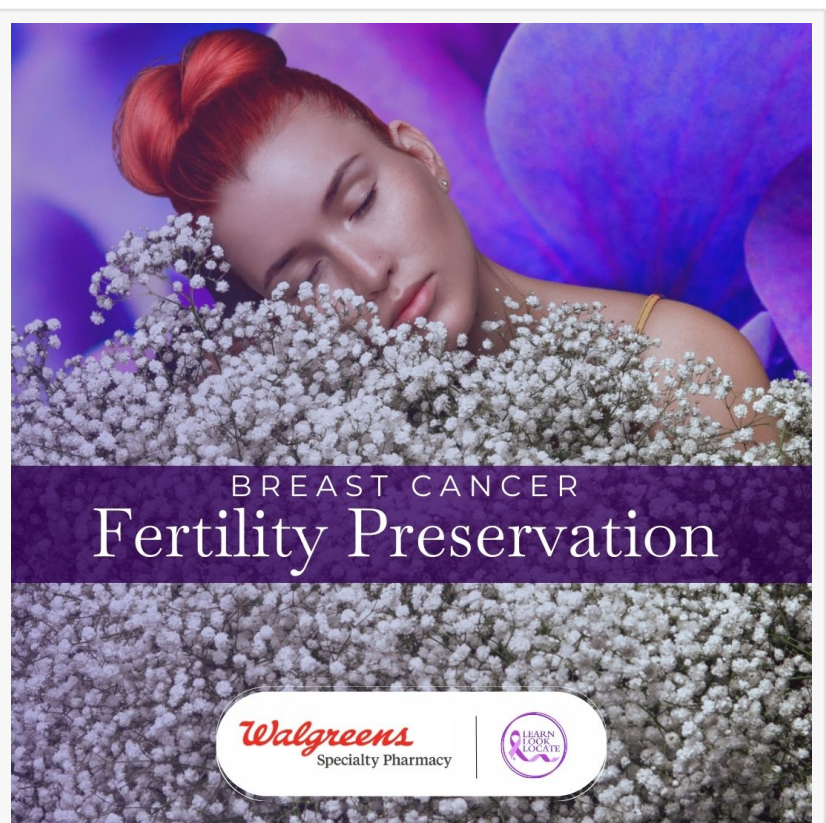

Lalymar (Laly) Havern, PharmD, MS, BCACP—Walgreens Director of Clinical Pharmacy Strategy—joins Learn Look Locate's Medical Advisory Board, advancing oncofertility and fertility-preservation education for breast cancer patients.

Thanks to Laly Havern's vision and deep understanding of critical gaps in care, the unique Walgreens–Learn Look Locate collaboration exists today, transforming how breast cancer patients have access to timely, vital education and support for fertility preservation before treatment begins. Her leadership has expanded fertility preservation support to over 60

Walgreens specialty pharmacy locations, making proactive counseling as a national standard in oncology care.

“Up to half of young women diagnosed with breast cancer face infertility because of treatment, yet fewer than half receive fertility counseling beforehand,” said Dr. Barry Rosen, Senior Medical Advisor at Learn Look Locate. “Laly’s leadership is instrumental in making these life-changing conversations a global standard.”

Beyond Walgreens, Laly is recognized for driving new standards in oncology and Reproductive health: she has reshaped best practices through policy advocacy, clinician education, and nationwide partnerships that bridge gaps for patients.

Breast Cancer Fertility Preservation — In partnership with Walgreens Specialty Pharmacy, Learn Look Locate expands timely, medically vetted oncofertility guidance so patients can explore family-building options before treatment.

“It’s heartbreaking to see people miss fertility preservation opportunities because they learn about them too late,” said Laly. “Partnering with Learn Look Locate enables me they learn about them too late,” said Laly. “Partnering with Learn Look Locate enables me to empower patients globally to protect their family-building futures, should they want it.”

“

It’s heartbreaking to see people miss fertility preservation opportunities because they learn about them too late,”

PharmD, MS, BCACP*

About Learn Look Locate

Founded by breast cancer survivor Cynthia Jordan, Learn Look Locate is a premier global breast cancer education and advocacy platform. It partners with top physicians and organizations to empower patients throughout their breast cancer journey and educate people globally about screening and early detection.

About (Laly) Havern, PharmD, MS, BCACP

Laly Havern, PharmD, MS, BCACP, is a director on the Clinical Pharmacy Strategy team at Walgreens, where she leads the strategy for clinical products and services in Oncology,

Reproductive Health, and Transplant. Her previous roles include 11 years in the field as a community pharmacist and 4 years in the support center conducting evidence-based clinical reviews and establishing clinical programs to address the needs of patients, providers, and partners. Her passion lies in surrounding patients with support through their health journey and improving clinical outcomes. She holds a doctorate in pharmacy from Duquesne University, a Master of Science in Pharmacogenomics from the University of Florida, and is board-certified in ambulatory care.
