## What Are The Major Factors Driving The Parabolic Flight Tourism Global Market Growth?

The rise in interest in space-oriented tourism activities is anticipated to fuel the expansion of the [parabolic flight tourism market growth](#) in the future. Space tourism involves enterprises linked to the universe, encompassing journeys to outer space as a tourist, observing a rocket launch, star gazing, or visiting a location with a space theme. Due to their safety and cost-effectiveness, these upsurge in activities related to space tourism is likely to boost the parabolic flight tourism, making it an appealing option for the public and scientists for carrying out various scientific investigations. In line with this, in July 2022, the Space Foundation, a non-profit institution in the USA that provides information on space exploration, confirmed that the commercial sector generated most of the space industry's revenue, reflecting a 6.4% increase in returns. Around \$224 billion was derived from the sales of products and services by space companies, while close to \$138 billion was allocated to infrastructure development and provision of support for these industries. Thus, the rising popularity of space-themed tourism activities is invigorating the parabolic flight tourism market.

## Who Are The Leading Companies In The Parabolic Flight Tourism Market?

Major players in the Parabolic Flight Tourism include:

- Zero Gravity Corporation
- Novespace
- MiGFlug GmbH
- Beings Systems
- Space Adventures
- Airbus Group SE
- Vegitel
- ASTRAX
