

AI World Conference Set for October in San Diego Focused on AI Governance

Leading AI Experts to Share Expertise on AI Governance

SAN DIEGO, CA, UNITED STATES, August 18, 2025 /EINPresswire.com/ -- AI World Conference, which focuses on [AI Governance](#) will take place October 27–29, 2025, at the Westgate Hotel in San Diego. This premier gathering focuses deeply on the critical and evolving field of AI Governance, anchored in a solid foundation of [Information Governance](#) principles. The InfoGov World Conference, in its fifth year, will be co-located with AI World. The conferences are hosted by the [Certified Information Governance Officers Association](#).

This unique collaboration brings together the best minds from both the information governance and artificial intelligence communities to provide attendees with world-class, practical knowledge, actionable strategies, and thought leadership on AI governance challenges and solutions.

Among the distinguished keynote speakers are:

“

We are pleased and proud to bring the brightest minds in AI Governance together at this critical juncture in AI.”

Robert Smallwood

Bennett Borden, Founder & CEO of Clarion AI Partners, a hybrid law and tech consulting firm, is recognized globally for his unparalleled expertise as an AI lawyer, data scientist, and ethicist. He brings an extraordinary perspective from his work with the CIA and DLA Piper, focusing on legal and policy implications of AI, algorithmic bias testing, and AI governance implementations across

multiple sectors.

AI World Conference San Diego

Peter Stockburger, Office Managing Partner at Dentons (the world's largest law firm) of San Diego and co-lead of the firm's Autonomous Vehicle practice. As Global Head of AI Governance Practice and co-author of "The Future of Global AI Governance," Peter offers critical insights into governance frameworks shaping the AI future.

Laura Madsen, acclaimed author of, "AI & The Data Revolution: How Teams can Harness Disruption to Conquer Turmoil," and global data strategist with decades of experience driving data innovation. Known for her disruptive thinking, Laura inspires organizations to embrace revolutionary data strategies in healthcare, government, manufacturing, and technology industries.

Robert Smallwood, MBA, CIGO, CIGO/AI, CEO of InfoGov World Media and chair of this conference, is the world's leading author and researcher on information governance, brings authoritative expertise on integrating information governance with AI governance, and is author of the forthcoming "The AI Governance Playbook," (Bloomsbury, 2025). "We are pleased and proud to bring the brightest minds in AI Governance together at this critical juncture in AI," Smallwood stated.

The joint conference program features deep, targeted sessions, interactive workshops, and panel discussions tailored to CIOs, CDOs, information governance professionals, privacy and cyber experts, AI and data science practitioners, and executives managing AI program success. Attendees come from a wide range of industries including finance, healthcare, transportation, energy, and government sectors.

This event goes beyond theory by delivering practical governance frameworks and best practices that attendees can immediately put to work in their organizations. It promises to facilitate peer
