

RadSite Recognizes Remote Scanning Workgroup Members for Contributions to New Accreditation Standards

Volunteer Committee Members Have Provided Important Guidance for Remote Scanning Standards and Operations

ANNAPOLIS, MD, UNITED STATES, August 20, 2025 /EINPresswire.com/ -- RadSite™, a leading accreditation organization promoting performance and quality-based imaging practices, expresses gratitude to the 40+ dedicated professionals who have played a key role in shaping the Remote Scanning Standards over the last two years. By engaging a diverse workgroup, RadSite was able to draw upon different perspectives in the field of imaging and thus develop the first comprehensive set of Remote Scanning Standards.

RadSite officially launched the new Remote Scanning Accreditation Program on July 22, 2025. The new Standards provide a detailed framework to support and evaluate remote scanning in both inpatient and outpatient settings.

Mark Hiatt, MD, Chief Medical Officer of RadSite, notes that “RadSite’s volunteer committee system facilitates important oversight, ensuring that both its standards development and accreditation review processes are effective while also incorporating current quality benchmarks. The work that the Remote Scanning Workgroup has done, in conjunction with the Standards Committee, is a prime example of successful collaboration. RadSite is very appreciative of the volunteers.”

The following are the expert individuals who have given their time and expertise to RadSite’s Remote Scanning Workgroup:

About RadSite™ (www.RadSiteQuality.com)

Founded in 2005, RadSite promotes quality-based practices for imaging systems across the United States and its territories. RadSite is recognized by The Centers for Medicare & Medicaid Services as an official accreditation organization under the Medicare Improvements for Patients and Providers Act of 2008. RadSite is also recognized by more than 350 payers and has accredited more than 2,000 imaging systems. The agency's programs help assess, track, and report imaging trends to enhance imaging procedures and outcomes. RadSite also offers educational programs, publishes issue briefs, and underwrites research on a complimentary basis to raise awareness of safety issues and to promote best practices. The organization is governed by an independent advisory board and committee system, which is open to a wide range of volunteers to ensure transparency and accountability.
