

ShipCargo Ai Expands Nationwide Auto Transport With New Car Shipping Terminal Network

ShipCargo Ai, led by founder Kevin Parada, launches a nationwide terminal network offering flexible car shipping, auto transport storage, and delivery options.

HOUSTON, TX, UNITED STATES, August 18, 2025 /EINPresswire.com/ -- ShipCargo Ai, a U.S.-based leader in auto transport and car shipping, today announced the launch of its nationwide vehicle terminal network, providing customers with greater convenience, storage, and delivery options.

With partner terminals now located in major metropolitan areas, customers can drop off their vehicles at a secure facility until a driver is available for pickup, or opt to have their cars delivered to a terminal where they can retrieve them at a later time. Daily storage fees range from \$20 to \$55 per day, depending on the facility and city, giving customers affordable flexibility during the shipping process.

By launching our car shipping terminal network, we're making auto transport more flexible, reliable, and secure for dealerships and individuals."

Kevin Parada

Enhanced Car Shipping Options

ShipCargo Ai continues to deliver a wide range of services including:

Door-to-door auto transport for maximum convenience

Expedited service with an assigned driver within 48 hours

Open and enclosed shipping options for standard and luxury vehicles

Three shipping windows with tiered pricing to fit different budgets and schedules

This expansion ensures customers now have more choices when planning their vehicle transport, whether they prefer terminal-to-terminal storage or direct delivery.

Commitment to Safety and Trust

ShipCargo Ai partners with Highway.com to verify all carriers, helping prevent fraud and double brokering while ensuring vehicles are transported by trusted professionals. Customers also benefit from GPS tracking throughout the shipping process for added transparency and peace of mind.

ShipCargo Ai: Technology + Human Support

Headquartered in Houston, Texas, ShipCargo Ai combines advanced AI-powered logistics technology with U.S.-based staff and remote customer support to provide seamless service nationwide. Customers receive instant online quotes, automated carrier matching, and real-time tracking—all backed by dedicated support agents.

Founder Kevin Parada on the Launch

“Auto transport is rapidly evolving as more customers purchase vehicles online and relocate across states,” said Kevin Parada, Founder and CEO of ShipCargo Ai. “By launching our nationwide terminal network, ShipCargo makes car shipping more flexible and reliable—whether customers need storage, faster pickups, or trusted delivery options.”

About ShipCargo Ai

ShipCargo Ai is a Houston, TX-based auto transport and car shipping company using advanced logistics technology to serve individual shippers, dealership and business customers. Services include door-to-door delivery, expedited pickups, open and enclosed transport, and now a nationwide terminal network for vehicle storage and flexible delivery.

Through its partnership with Highway.com, ShipCargo Ai ensures safe and verified carrier transport, while providing customers with GPS tracking and transparent pricing. Led by Kevin Parada, ShipCargo Ai is committed to redefining the car shipping experience with technology, trust, and convenience.
