#### LAUNCHING ROGER SPITZ'S NEW VISIONARY TRILOGY KEYNOTE SERIES

This empowering new keynote series equips organizations worldwide with Roger Spitz's unique expertise, delivered to help leaders, investors, and policymakers build resilience in unpredictable times.

As we prepare for 2026, The Visionary Trilogy will inspire and energize audiences around the globe, rewiring how we think, decide, and lead in a rapidly shifting world.

The Visionary Trilogy features three flagship talks:

##### 1. THE MINDSET SHIFT – Become Visionary in an Unpredictable World:

Change is slow... until it isn't. How do you anticipate unpredictable futures? Spitz introduces a radical new concept demanding a new mindset: Metaruptions - complex, self-reinforcing disruptions that go beyond trends, redefining industries and rewriting rules.

##### 2. THE INTELLIGENCE SHIFT – Upgrade Human Decision-Making in the Age of AI:

Explore the future of AI and decision-making amid systemic disruption. As algorithms increasingly shape decisions, the question is not only whether to trust them - but whether we understand their limits well enough to trust ourselves. Staying relevant means fostering a new relationship with agency, experimentation, and a lifelong journey of learning - spanning from the playground to the boardroom.

##### 3. THE LEADERSHIP SHIFT – Inspire Transformational Futures.

What does anticipatory leadership for sustainable value creation look like? Value is either created or destroyed by change. Ultimately, disruption's impact depends on your perspective, preparation, and response. The winners will be those who anticipate and adapt. The rest risk irrelevance.

This timely series offers leaders, investors, and policymakers a powerful framework to rethink mindset, reclaim intelligence, and reinvent leadership.
